COLOUR SAMPLES SILICONE 825

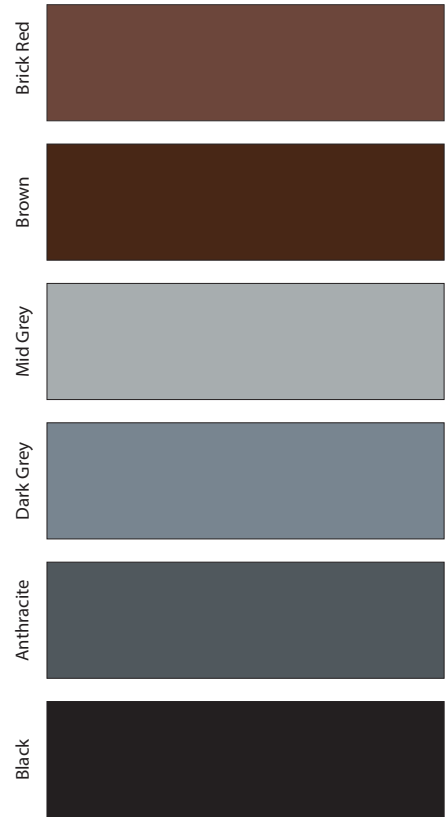

Formulated for Performance

Select Everbuild “Tecnic” products for your application needs and you have the re-assurance you are using a product which is formulated for performance above all else.

Silicone 825

SILICONE 825 is a low modulus, neutral curing silicone sealant based on a filled alkoxy curing system. Conforms to ISO11600 class: F 25LM and G25LM when tested to ISO9047. Used for expansion joints to stone, brick, concrete and composite panels, perimeter pointing around all types of window and door frames. Substrates: Glass, aluminium and PVC - all primerless.

**Whilst every effort is made to ensure faithful colour reproduction - owing to print limitations and individual monitor settings; the colours shown should not be relied upon as an exact colour representation. Applied colour samples are available on request.
