Introducing Major Project Support from Sika. Sika is a global market leader producing quality solutions for the construction industry. Our success is based on understanding the demands of designing and delivering a large complex project and how to add value to the project.

At Sika we are able to offer a comprehensive range of solutions and services allowing our customers to work with one point of contact and one provider, ensuring guaranteed quality and consistency as well as efficiency through the whole project cycle.

To assist clients when dealing with such projects, Sika have introduced The Major Projects Team.

Due to our wide portfolio of products and systems, including industry leading brands we are able to offer unbiased advice and recommendations based on the most appropriate technical and commercially viable solution(s).

SIKA SERVICES

- Single point of contact for all project requirements
- Design Support
- Specification writing
- Standard and bespoke detail drawing assistance
- Unbiased assistance when selecting appropriate systems
- Performance feasibility
- BIM Support
- Value Engineering at design stage
- Life cycle and sustainability analysis

SIKA SUSTAINABILITY

Through its products, systems, and solutions, Sika strives to create long-term benefits and added value for all its stakeholders, and to significantly reduce resource consumption and the impacts associated with production processes. Every new product that Sika brings to market has to meet two criteria - as well as possessing significantly improved properties. It must also deliver enhanced sustainability benefits such as reduced packaging or a reduced carbon footprint. Providing More Value with Less Impact.

SIKA SOLUTIONS

| Waterproofing | Concrete | Flooring | Steel and Fire Protection | Hygiene Coatings | Roofing | Façades |
|---|--|---|---|--|---|---|
| <p>Full range waterproofing solutions includes:</p> <ul style="list-style-type: none"> ■ Watertight concrete system ■ Fully bonded sheet membrane system ■ Compartmentalised membrane system ■ Liquid applied membranes ■ Render system ■ Cavity drainage system ■ Ground gas and VOC protection | <p>Specialist admixtures includes:</p> <ul style="list-style-type: none"> ■ Water reducing admixtures ■ Set controlling admixtures ■ Durability enhancing admixtures ■ Additives for cement grinding process ■ Fibres <p>Other concrete includes:</p> <ul style="list-style-type: none"> ■ Watertight concrete ■ High strength concrete ■ Coloured concrete ■ Fibre concrete ■ Microsilica concrete ■ Self-compacting concrete and more | <p>Floor solutions including:</p> <ul style="list-style-type: none"> ■ Resin anti-static and cleanroom suitable systems ■ Decorative, seamless and sustainable commercial flooring - Sika® Comfortfloor® ■ Industrial PU systems for industrial and durable applications - Sika® PurCem® ■ Car park deck solutions - PMMA modular systems and polyurea - Sika® OneShot ■ Industrial screeds ■ Underlayment primers and self levelling compounds ■ Adhesives ■ Fast curing, self-levelling Sikaflex®-406KC floor joint sealant solution <p>Cementitious Flooring:</p> <ul style="list-style-type: none"> ■ Dry shake hardeners ■ Curing, sealing, hardening and dustproofing solutions | <p>Sika Corrosion Protective coatings for:</p> <ul style="list-style-type: none"> ■ Structural steel frames ■ Transport infrastructure ■ Power generation & distribution ■ Pipeline coating (internal and external) <p>Sika Fire Protection solutions for:</p> <ul style="list-style-type: none"> ■ Structural steel ■ Galvanised and stainless steel ■ Untreated Steel ■ Wood (internal) ■ Concrete ■ Cables (electrical and IT) <p>Sika Passive Fire Protection Solutions</p> | <p>Seamless hygienic wall coating system, based on a waterborne modified acrylic resin containing an in-film preservative to protect the coating from attack and degradation by bacteria, fungi, mould, yeast and algae.</p> <p>Characteristics/Advantages:</p> <ul style="list-style-type: none"> ■ Very low emission of VOC ■ Good resistance to repeated cleaning regime ■ Tough and highly durable ■ Resistant to cracking and flaking ■ Solvent free and odourless ■ Easy to apply ■ Suitable for cleanroom certified areas, food and beverage processing areas and laboratories | <ul style="list-style-type: none"> ■ Singly ply membranes ■ Liquid applied membranes (cold applied application) ■ Bituminous membranes <p>Solutions for all roof types:</p> <ul style="list-style-type: none"> ■ Built up roofs ■ Green ■ Solar ■ Ballasted <p>Liquid Plastics Sarnafil Sika-Trocal SikaBit</p> | <p>Façade, fenestration and insulated glass solutions that include products tailored to meet highly specific demands:</p> <ul style="list-style-type: none"> ■ Structural glazing sealants and adhesives ■ Insulating glass sealants ■ Rainscreen panel systems ■ Vapour permeable membrane ■ Fully self-adhered membrane ■ Balustrade fixing <p>Precast Façade Expansion Joint Sealant solutions</p> |

FOR MORE INFORMATION:

WHO WE ARE

Sika Limited and Sika Ireland Limited are part of the global Sika Group, specialising in the manufacture and supply of chemical based products. Sika has a leading position in the development and production of systems and products for bonding, sealing, damping, reinforcing, and protecting in the building sector and the motor vehicle industry. Sika has subsidiaries in 100 countries around the world and manufactures in over 300 factories. With more than 25,000 employees Sika generates annual sales of CHF 8.1 billion (£6.6 bn). We are also committed to providing quality, service, safety and environmental care.

In the UK and Ireland, we provide market-leading solutions for concrete, waterproofing, roofing, flooring, refurbishment, sealing & bonding, and industry, and have manufacturing sites in Welwyn Garden City, Preston, Leeds, Wishaw and Dublin with more than 1000 employees and a turnover of more than £270 million.

The information, and, in particular, the recommendations relating to the application and end use of Sika® products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. Please refer to our homepage www.sika.co.uk for our current standard terms & conditions applicable to all orders. Users should always refer to the most recent issue of the Product Data Sheet for the product concerned, copies of which will be supplied on request.
