Sikaflex®-EBT MUSCLE THAT FLEXES

Adhesive ■ Sealant ■ Filler

Sikaflex®-EBT

Just the Job For Every Job !

Why use Sikaflex®-EBT ?

IT'S AN ADHESIVE.

An incredibly strong, permanent bond with excellent grab and non-sag properties. It also replaces the need for most mechanical fixings and, because it's flexible, it won't de-bond.

IT'S A SEALANT.

A permanently elastic sealant that is resistant to vibration and extreme temperature changes. It also offers excellent resistance to ageing.

IT'S A FILLER.

A waterproof, permanently flexible filler that can be used for even the widest gaps. It also has resistance to shock and impact so it will never fall out.

Sikaflex®-EBT is the tradesman's dream. This permanently flexible adhesive, sealant and filler can be used for a massive range of applications and on a wide range of materials.

Its many uses include:

- Fixtures in bathrooms and kitchens
- Fixing and sealing roof tiles, flashings and gutters
- Fixing and sealing architrave, panelling, mouldings, ceramic and acoustic tiling
- Fixing and sealing door and window frames
- Filling and sealing external and internal cracks
- Flexible draught-proofing
- Sealing gaskets for ducting, flanges, crimping and interlocking surfaces
- Fixings in shopfitting and aluminium fabrication

The incredibly versatile nature of **Sikaflex®-EBT** means it is perfect for all tradesmen, including:

- General Builders
- Roofers
- Plumbers
- Electricians
- Shopfitters

Suitable for use on a wide range of materials:

- Concrete
- Wood
- Metal
- Brick
- Stone
- Tiles
- Glass
- Plaster
- Bathroom Fixtures
- Guttering
- Roof tiles
- Flashings
- Mirrors
- Material
- Window frames
- Door frames
- Cracks
- Aluminium fabrication
