

FLOORING AND COATINGS

INNOVATIVE Sika[®] FloorJoint S

NOISELESS VIBRATION-FREE JOINT PANELS

BUILDING TRUST

THE SOUND AND FEELING of rumbling over crossing joints in warehouses is familiar to most people. It can feel uncomfortable and cause irritation for your ears and body but up until now there hasn't been a suitable solution. Even hospital patients have had to endure the unpleasant experience.

Sika can now offer the perfect solution with ultra-thin and almost invisible joint profiles. The profiles are installed on the same surface level as the floor, which means no more thresholds. One benefit of this new system is reduced damage to vehicles, meaning the cost of spare parts for trucks decreases significantly too. A real added value in every respect.

Sika® FloorJoint

Innovative joint panel – vibration-free, noiseless and quick return to service.

LOW-VIBRATION AND NOISELESS TRAFFICKING Sika® FloorJoint S

MOVEMENT OF SENSITIVE GOODS CAN BE DONE QUICKLY AND WITH EASE. NOTHING IS GOING TO BREAK. THRESHOLD-LESS AND NOISELESS FORK-LIFT DRIVING IS MADE POSSIBLE.

REQUIREMENTS

Floor joints in industrial areas equipped with conventional steel profiles are subject to high loads when they are trafficked by fork-lifts. If the profiles are not absolutely flat they can cause noise, vibration and blows on wheel bearings. This causes the fork-lifts to suffer and can contribute to a high wear rate of spare parts. The Sika® FloorJoint S joint system is the perfect solution. The prefabricated, carbon fibre reinforced polymer concrete profile can also be retrofitted with little effort. The result is a noiseless and vibration-free ride suitable for all kinds of fork-lifts.

ADVANTAGES

- Maintenance and repair can be done over the weekend
- No vibrations when trafficked
- Significant reduction of wear to components such as wheel bearings, etc. from fork-lifts
- Grindable, therefore ultra-flat
- High chemical resistance
- Easy installation and easy repair
- Easy solution for the connection between horizontal and vertical construction elements

RANGE OF USE

Suitable for use in new constructions and in the refurbishment of all areas where a joint is needed and where the floor joint can be trafficked.

APPLICATION

Sika® FloorJoint S is not only suitable for new buildings but also for the refurbishment of defective joint panels where it can be installed easily and smoothly. Only a very short time is needed because rapid resin systems are used to bond the panels to the concrete substrate. This minimizes the interruption of daily operation and thus relieves budget pressure. A smooth plane is achieved by grinding, which prevents reliable beats and noise. Critical floor joints in warehouses and assembly halls, workshops, hospitals and shops disappear quickly and easily.

WHO WE ARE

Sika Limited and Sika Ireland Limited are part of the global Sika Group, specialising in the manufacture and supply of chemical based products for construction and industry. Sika is a world-leader in its field with subsidiaries in 90 countries around the world and manufactures in over 160 factories. With approximately 17,000 employees Sika generates annual sales of CHF 5.6 billion (£3.9bn). We are also committed to providing quality, service, safety and environmental care.

In the UK and Ireland, we provide market-leading solutions for concrete, waterproofing, roofing, flooring, refurbishment, sealing & bonding, and industry, and have manufacturing sites in Welwyn Garden City, Preston, Leeds and Dublin with more than 700 employees and a turnover of more than £190 million.

The information, and, in particular, the recommendations relating to the application and end use of Sika® products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users should always refer to the most recent issue of the Product Data Sheet for the product concerned, copies of which will be supplied on request.
