# Safety Data Sheet

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II - United Kingdom (UK)

### IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF 1. THE COMPANY/UNDERTAKING

### Identification of the substance/preparation

Product name or Trade name: Sika® Concrete Primer Part A

Use of the substance/preparation : Chemical product for construction and industry

Company/undertaking identification

Manufacturer/Distributor : Sika Limited

Watchmead Welwyn Garden City

Hertfordshire. AL7 1BQ

United Kingdom

Telephone no. : 01707 394444 Fax no. : 01707 329129 e-mail address of person

responsible for this SDS

: EHS@uk.sika.com

**Emergency telephone number** : +44 (0)1707 363899 (available during office hours).

#### 2. HAZARDS IDENTIFICATION

The product is classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : R10

Carc. Cat. 3; R40 Xn; R48/20 Xi; R36/37/38 R42/43

Physical/chemical hazards : Flammable.

**Human health hazards** : Limited evidence of a carcinogenic effect. Harmful: danger of serious damage to

health by prolonged exposure through inhalation. Irritating to eyes, respiratory system

and skin. May cause sensitisation by inhalation and skin contact.

Additional warning phrases : Contains isocyanates. See information supplied by the manufacturer.

See section 11 for more detailed information on health effects and symptoms.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient name	CAS number	%	EC number	Classification	
2-methoxy-1-methylethyl acetate Diphenylmethanediisocyanate, isomeres and homologues	108-65-6 9016-87-9	25-35 10-25	203-603-9	R10 Carc. Cat. 3; R40 Xn; R20, R48/20 Xi; R36/37/38 R42/43	[2] [1]
propyl acetate	109-60-4	5-10	203-686-1	F; R11 Xi; R36 R66, R67	[1] [2]
See section 16 for the full text of the R-phrases declared above					

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

[1] Substance classified with a health or environmental hazard

Date of issue : 06.10.2010. **MSDS no.** : 604217 1/7

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

[2] Substance with a workplace exposure limit

[3] PBT-substance

[4] vPvB-substance

Occupational exposure limits, if available, are listed in section 8.

## 4. FIRST AID MEASURES

#### First-aid measures

**Inhalation** : If it is suspected that fumes are still present, the rescuer should wear an appropriate

mask or self-contained breathing apparatus. Get medical attention. Get medical

attention if symptoms appear.

**Ingestion** : Do not induce vomiting unless directed to do so by medical personnel. Maintain an

open airway. Seek immediate medical attention.

**Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and

shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention if symptoms

occur.

**Eye contact**: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower

eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10

minutes. Get medical attention.

**Notes to physician**: No specific treatment. Treat symptomatically. Contact poison treatment specialist

immediately if large quantities have been ingested or inhaled.

See section 11 for more detailed information on health effects and symptoms.

## 5. FIRE-FIGHTING MEASURES

### **Extinguishing media**

**Suitable** : Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

**Not suitable** : Do not use water jet.

**Special exposure hazards**: Flammable liquid. In a fire or if heated, a pressure increase will occur and the

container may burst, with the risk of a subsequent explosion. The vapour/gas is heavier than air and will spread along the ground. Vapours may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back.

Runoff to sewer may create fire or explosion hazard.

**Hazardous combustion** 

products

: Decomposition products may include the following materials:

carbon dioxide

carbon monoxide

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure

mode.

# 6. ACCIDENTAL RELEASE MEASURES

Personal precautions

: Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Put on appropriate personal protective equipment (see section 8). Evacuate surrounding areas.

**Environmental precautions** 

: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental

pollution (sewers, waterways, soil or air).

Large spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Use spark-proof tools and explosion-proof equipment.

Small spill

: Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment.

Date of issue : 06.10.2010. MSDS no. : 604217 2/7

# 6. ACCIDENTAL RELEASE MEASURES

## 7. HANDLING AND STORAGE

## Handling

: Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Persons with a history of skin sensitisation problems or asthma, allergies or chronic or recurrent respiratory disease should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous.

### **Storage**

Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

#### Packaging materials

**Recommended**: Use original container.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## **Exposure limit values**

Ingredient name	Occupational exposure limits
2-methoxy-1-methylethyl acetate	EH40/2005 WELs (United Kingdom (UK), 8/2007). Absorbed
	through skin.
	STEL: 548 mg/m³ 15 minute(s).
	STEL: 100 ppm 15 minute(s).
	TWA: 274 mg/m³ 8 hour(s).
	TWA: 50 ppm 8 hour(s).
Diphenylmethanediisocyanate, isomeres and	EH40/2005 WELs (United Kingdom (UK), 8/2007). Skin sensitiser.
homologues	Notes: as NCO
	STEL: 0.07 mg/m³, (as NCO) 15 minute(s).
	TWA: 0.02 mg/m³, (as NCO) 8 hour(s).
propyl acetate	EH40/2005 WELs (United Kingdom (UK), 8/2007).
,	STEL: 1060 mg/m³ 15 minute(s).
	STEL: 250 ppm 15 minute(s).
	TWA: 849 mg/m <sup>3</sup> 8 hour(s).
	TWA: 200 ppm 8 hour(s).
	••

# Recommended monitoring procedures

: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

#### **Exposure controls**

Date of issue : 06.10.2010. MSDS no. : 604217 3/7

#### 8. **EXPOSURE CONTROLS/PERSONAL PROTECTION**

Occupational exposure

controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapour or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

Respiratory protection

Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Use a properly fitted, air-purifying or air-fed respirator complying with an approved

standard if a risk assessment indicates this is necessary.

organic vapour filter (Type A)

A1: < 1000 ppm; A2: < 5000 ppm; A3: < 10000 ppm

Hand protection

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Recommended: Butyl rubber/nitrile rubber gloves.

Eye protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Skin protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: Use barrier skin cream.

**Environmental exposure** controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

#### **General information**

**Appearance** 

**Form** : Liquid. Colour : Yellowish. Odour : Characteristic.

Important health, safety and environmental information

Flash point : Closed cup: ~40°C (104°F)

**Explosion limits** : Lowest known value:

Lower: 1.5% (2-methoxy-1-methylethyl acetate)

Highest known value:

Upper: 10.8% (2-methoxy-1-methylethyl acetate)

: Highest known value: 0 kPa (0.025275 mm Hg) (2-methoxy-1-methylethyl acetate) Vapour pressure

Density : ~1.1 g/cm³ [20°C (68°F)]

Vapour density : >1 [Air = 1]

#### STABILITY AND REACTIVITY **10**.

Stability

: The product is stable.

Conditions to avoid

: Avoid all possible sources of ignition (spark or flame). Do not pressurise, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. Do not

allow vapor to accumulate in low or confined areas.

Materials to avoid

: Reactive or incompatible with the following materials:

oxidizing materials

: 06.10.2010. Date of issue **MSDS no.** : 604217 4/7

# 10. STABILITY AND REACTIVITY

Hazardous decomposition

products

: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. TOXICOLOGICAL INFORMATION

#### Potential acute health effects

Inhalation

: Irritating to respiratory system. May cause sensitisation by inhalation. May cause

irritation.

Ingestion

: Irritating to mouth, throat and stomach.

Skin contact

: Irritating to skin. May cause sensitisation by skin contact.

Eye contact

: Irritating to eyes.

**Chronic effects** 

: Harmful: danger of serious damage to health by prolonged exposure through

inhalation. Once sensitized, a severe allergic reaction may occur when subsequently

exposed to very low levels.

Carcinogenicity

: May cause cancer, based on animal data. Limited evidence of a carcinogenic effect.

Risk of cancer depends on duration and level of exposure.

## 12. ECOLOGICAL INFORMATION

**Environmental effects** 

: Avoid contact of spilt material and runoff with soil and surface waterways. Do not empty into drains; dispose of this material and its container in a safe way.

## 13. DISPOSAL CONSIDERATIONS

Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

European waste catalogue (EWC)

 08 01 11\* waste paint and varnish containing organic solvents or other dangerous substances

**Packaging** 

: Completely emptied packaging or practically empty packaging containing dried/cured residues, once relieved of all pressure can be disposed of as non-hazardous waste.

Packaging may still contain hazardous residues and disposal should undertaken by a licensed waste contractor.

Any disposal practice must be in compliance with local and national laws and regulations.

15 01 10\* packaging containing residues of or contaminated by dangerous substances

## 15. REGULATORY INFORMATION

## EU regulations

Classification and labeling have been determined according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and take into account the intended product use.

Hazard symbol or symbols : Xn

Harmful

Contains : Diphenylmethanediisocyanate, isomeres and homologues

**Risk phrases** : R10- Flammable.

R40- Limited evidence of a carcinogenic effect.

R48/20- Harmful: danger of serious damage to health by prolonged exposure through

inhalation.

R36/37/38- Irritating to eyes, respiratory system and skin. R42/43- May cause sensitisation by inhalation and skin contact.

Safety phrases : S23- Do not breathe gas/fumes/vapour/spray

S36/37- Wear suitable protective clothing and gloves.

S45- In case of accident or if you feel unwell, seek medical advice immediately (show

the label where possible).

Additional warning phrases

: Contains isocyanates. See information supplied by the manufacturer.

VOC content (EU) : VOC (w/w): 34%

National regulations

Regulatory information : Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (CHIP

4)

Control of Substances Hazardous to Health Regulations 2002 (COSHH) (as

amended)

# Safety Data Sheet

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II - United Kingdom (UK)

### 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

### Identification of the substance/preparation

Product name or Trade name: Sika® Concrete Primer Part B

Use of the substance/preparation : Chemical product for construction and industry

Company/undertaking identification

Manufacturer/Distributor : Sika Limited

Watchmead Welwyn Garden City

Hertfordshire. AL7 1BQ

United Kingdom

Telephone no. : 01707 394444 Fax no. : 01707 329129 e-mail address of person

responsible for this SDS

: EHS@uk.sika.com

: +44 (0)1707 363899 (available during office hours). **Emergency telephone number** 

#### 2. HAZARDS IDENTIFICATION

The product is classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : C; R34 R43

R52/53

**Human health hazards** : Causes burns. May cause sensitisation by skin contact.

**Environmental hazards** : Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic

environment.

See section 11 for more detailed information on health effects and symptoms.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient name	CAS number	%	EC number	Classification	
Blocked cycloaliphatic amine	173904-11-5	>=90		C; R34 R43 R52/53	[1]
See section 16 for the full text of the R-phrases declared above					

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] PBT-substance
- [4] vPvB-substance

Occupational exposure limits, if available, are listed in section 8.

: 06.10.2010. Date of issue **MSDS no.** : 604218 1/6

## 4. FIRST AID MEASURES

#### First-aid measures

Inhalation

: Get medical attention immediately. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus.

Ingestion

: Get medical attention immediately. Do not induce vomiting unless directed to do so by medical personnel. Chemical burns must be treated promptly by a physician. Maintain an open airway.

Skin contact

: Get medical attention immediately. Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician.

Eye contact

: Get medical attention immediately. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician.

Notes to physician

: No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

See section 11 for more detailed information on health effects and symptoms.

## 5. FIRE-FIGHTING MEASURES

**Extinguishing media** 

**Suitable**: Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

Not suitable : Do not use water jet.

: Combustible liquid. In a fire or if heated, a pressure increase will occur and the

container may burst, with the risk of a subsequent explosion.

Hazardous combustion products

Special exposure hazards

: No specific data.

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions** 

: Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Put on appropriate personal protective equipment (see section 8).

**Environmental precautions** 

: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material.

Large spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Use spark-proof tools and explosion-proof equipment.

Small spill

: Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment.

## 7. HANDLING AND STORAGE

Handling

: Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from

Date of issue : 06.10.2010. MSDS no. : 604218 2/6

## 7. HANDLING AND STORAGE

heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by earthing and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous.

#### Storage

: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

## Packaging materials

**Recommended**: Use original container.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Exposure limit values**

#### **Ingredient name**

#### Occupational exposure limits

No exposure limit value known.

# Recommended monitoring procedures

: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

#### **Exposure controls**

Occupational exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapour or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

Respiratory protection Hand protection No special measures required.

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Recommended: Butyl rubber/nitrile rubber gloves.

Eye protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Skin protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: Use barrier skin cream.

**Environmental exposure** controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Date of issue : 06.10.2010. MSDS no. : 604218 3/6

## 9. PHYSICAL AND CHEMICAL PROPERTIES

#### **General information**

**Appearance** 

Form : Liquid.
Colour : Yellowish.
Odour : Amine-like.

### Important health, safety and environmental information

Flash point : Closed cup: ~73°C (163.4°F)

Density : ~0.9 g/cm³ [20°C (68°F)]

**Solubility**: Insoluble in the following materials: water

Vapour density : >1 [Air = 1]

## 10. STABILITY AND REACTIVITY

**Stability**: The product is stable.

Conditions to avoid : Avoid all possible sources of ignition (spark or flame). Do not pressurise, cut, weld,

braze, solder, drill, grind or expose containers to heat or sources of ignition.

**Materials to avoid** : Reactive or incompatible with the following materials:

oxidizing materials

Hazardous decomposition

products

: Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

## 11. TOXICOLOGICAL INFORMATION

#### Potential acute health effects

**Inhalation**: May give off gas, vapor or dust that is very irritating or corrosive to the respiratory

system. May cause irritation.

**Ingestion** : May cause burns to mouth, throat and stomach.

**Skin contact**: Corrosive to the skin. Causes burns. May cause sensitisation by skin contact.

**Eye contact** : Corrosive to eyes. Causes burns.

**Chronic effects** : Once sensitized, a severe allergic reaction may occur when subsequently exposed to

very low levels.

## 12. ECOLOGICAL INFORMATION

Environmental effects : H

: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

## 13. DISPOSAL CONSIDERATIONS

Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
