

PRODUCT DATA SHEET

Sika® Forever White Grout Reviver

FOR RESTORING DISCOLOURED AND DIRTY GROUT TO A BRIGHT WHITE FINISH

PRODUCT DESCRIPTION

Sika® Forever White Grout Reviver is the easy way to revive and restore discoloured and dirty grout to an extra brilliant white finish.

Sika® Forever White Grout Reviver integrates Mould Shield®, a leading anti-bacterial solution, to protect against black mould, mildew and bacterial growth which are commonly found in areas of high humidity. Manufactured in the UK with Sika®, these high-quality antimicrobial products are rigorously tested to show no mould growth after 10 years of simulated ageing. Copies of test data available on request.

USES

- Kitchen/Bathroom Walls.
- Shower areas.
- Wet rooms.

CHARACTERISTICS / ADVANTAGES

- Excellent water resistance.
- Dries brilliant white.
- Contains Mould Shield® to prevent mould growth.
- Ready to use formula.

PRODUCT INFORMATION

Packaging	200 mL Squeezy Tube
Shelf Life	Minimum of 12 months when stored according to the manufacturer's instructions.
Storage Conditions	Store at +5 to +25 °C. PROTECT FROM FROST.

VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LIMITATIONS

- Allow to fully dry before exposure to water.
- Do not use over epoxy grout.
- As the manufacturer cannot know all the uses their products may be put to, it is the user's responsibility to determine suitability for use. If in doubt, contact the Technical Services department for advice. In all circumstances, the manufacturer's liability is limited to the value of the manufacturer's product purchased.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

SUBSTRATE PREPARATION

Surfaces must be clean, dry, dust free and sound. Remove any old mould with Everbuild® 404 Fungicidal Wash prior to application and allow to dry. Replace any damaged, loose or cracked grouting by raking and re-grouting with Sika® Forever White Powder Wall Tile Grout and allow to dry. Certain tiles (e.g. non-glazed,

metallic, textured or hand painted) may not be compatible with this product. Always test a small inconspicuous area for compatibility prior to full scale application.

APPLICATION

Remove cap and squeeze the Grout Reviver tube until product is expelled. Continue squeezing and apply to grout lines in a zig zag motion ensuring even coverage and working well into existing grout. Allow to dry for 3-4 hours then remove any excess product from tiles with a damp cloth or sponge. Any residue still remaining on tiles can easily be removed by moistening, leaving for 15 minutes and then removing as above.

A second application may be necessary for badly stained areas once the first coat is dry (3-4 hours).

After the removal of residues, polish tiles with a clean dry cloth.

Avoid wetting tiles for 24 hours after application

(longer in cold, poorly ventilated/humid conditions).

Rinse applicator sponge in warm water after use and replace cap to enable product to be used again. Wash hands with warm water and soap after use.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
