

SIKA AT WORK

HYGRADE FOODS, WILTSHIRE

Location: Wiltshire, United Kingdom
Project: Hygrade Foods – Resin flooring solution for new meat processing facility
Client: Tulip International
Applicator/Contractor: Polydeck
Designer/Specifier/ Architect: Ian Pamplan Associates
Market Sector: Industrial Flooring

Products Used:
■ Sika® Ucrete® UD 200 SR

HYGRADE FOODS, WILTSHIRE

Background

Hygrade Foods, a trusted supplier of premium meat products to Waitrose supermarket chain, upgraded its facilities to top-of-the-line resin floors. Spanning 3,000m², these floors were installed by flooring specialist Polydeck. 2,000m² of Sika® Ucrete® UD 200 SR was laid in the manufacturing facility. Hygrade Foods is part of the Tulip International group, operating approximately 18 sites across the UK. Notably, their King's Lynn site boasts a prior installation of 8,000m² of Sika® Ucrete® UD 200.

The Challenge

The specification called for a floor screed that excelled in hygiene, chemical resistance, and slip prevention for the process areas; while the engineering workshops demanded a durable, impact-resistant floor. In the corridors, the objective was to achieve a visually appealing, bright finish that also offered a soft feel underfoot with effortless maintenance.

Our Solution

Sika® Ucrete® UD 200 SR, a heavy-duty polyurethane screed, was recommended and applied at a thickness of 6-9mm, its profiled finish minimises slips and accidents in the workplace. Sika® Ucrete® UD 200 SR is impervious, can be cleaned to the same standard as stainless steel and will resist damage by cleaning and process chemicals.

Benefits

- Seamless finishes with low cleaning and maintenance costs, combined with durable, aesthetic, and cost-effective solutions.
- The client's expectations were met in all instances due to the ability to supply products that met specific criteria in the three floor zones.
- The floors were installed to a high standard, with unique designs created by Jeanet Hönig to provide individuality in the corridors and development kitchens.

Projects facts at a glance

- Sika® Ucrete® UD 200 SR is impervious and can be cleaned to the same standard as stainless steel.
