

SikaMembran®-200 FSA

SELF-ADHESIVE, VAPOUR PERMEABLE AND AIR BARRIER MEMBRANE

SikaMembran®-200 FSA is a self-adhesive, weather resistant and vapour permeable membrane (sd value 0.039 m), providing an airtight seal. It is used on walls with a cavity or behind a rainscreen cladding system, providing excellent adhesion to concrete and other weatherboards.

- Self-adhesive membrane
- Lightweight and easy to install
- Airtight and vapour permeable
- Good resistance to punctures and tears
- BBA certified
- Class B-s1, d0 according to BS EN 13501 - 1:2007+A1:2009*
