

PRODUCT DATA SHEET

Cromar® Lead Fixing Clips

Fixing clips for use with Leadax Original and Leadax Easy FA.

PRODUCT DESCRIPTION

For use with above ground masonry, the fixing clips allow you to attach Leadax Original into masonry joints quickly and easily. Also suitable for use with lead.

USES

Flashing fixing clips are designed for securing alternative flashing into chase joints on brickwork and masonry. They provide a quick, secure, and durable fixing without the need for traditional lead wedges. Suitable for use with both traditional lead sheet and lead alternatives such as Leadax Original, the clips ensure consistent fixing performance and long-term weather protection.

CHARACTERISTICS / ADVANTAGES

- Simple and fast installation – no special tools required.
- Corrosion-resistant high tensile strength precision spring stainless steel.
- Strong grip ensures secure hold of lead flashing.
- Compatible with lead alternatives and sealants.
- Ideal for fixing step flashings.
- Maintenance-free once installed.

| | |
|--------------------|---|
| Packaging | 50 clips per polythene bag. |
| Shelf Life | Physical item, no age restriction providing visibly remain in good condition with no sign of corrosion. |
| Storage Conditions | Store in cool dry place in undamaged bags. |

VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the

product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

APPLICATION INSTRUCTIONS

- Insert the clip into the chase joint with the prongs facing the brickwork.
- Once fully inserted, ensure the lead / lead alternative flashing is held firmly in place.
- Apply lead sealant to point the area and provide weatherproof sealing.
- Repeat at approximately 450 mm intervals along the flashing.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
