Revision Date: 16.07.2025		

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : SikaPower®-2950 Part A

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : Adhesive

1.3 Details of the supplier of the safety data sheet

Company name of supplier	:	Sika Limited Watchmead Welwyn Garden City Hertfordshire. AL7 1BQ
Telephone	:	+44 (0)1707 394444
Telefax	:	+44 (0)1707 329129
E-mail address of person responsible for the SDS	:	EHS@uk.sika.com

1.4 Emergency telephone number

National Chemical Emergency Centre (NCEC) 24 Hour Emergency Telephone Number +44 870 190 6777

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 12 Acute toxicity, Category 4	72/2008) H332: Harmful if inhaled.
Skin irritation, Category 2	H315: Causes skin irritation.
Eye irritation, Category 2	H319: Causes serious eye irritation.
Respiratory sensitisation, Category 1	H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.
Carcinogenicity, Category 2	H351: Suspected of causing cancer.
Specific target organ toxicity - single ex- posure, Category 3, Respiratory system	H335: May cause respiratory irritation.
Specific target organ toxicity - repeated exposure, Category 2	H373: May cause damage to organs through pro- longed or repeated exposure if inhaled.

Date of last issue: 20.03.2024 Revision Date: 16.07.2025		Version 7.0	Print Date 16.07.2025
2.2 Label elements			
Labelling (REGULATION (EC) Hazard pictograms :	No 1272/2008)		
Signal word :	Danger		
Hazard statements :	H317 M H319 C H332 H H334 M H335 M H351 S H373 M	auses skin irritation. lay cause an allergic skin reaction. auses serious eye irritation. armful if inhaled. lay cause allergy or asthma sympto g difficulties if inhaled. lay cause respiratory irritation. uspected of causing cancer. lay cause damage to organs throug repeated exposure if inhaled.

fessional use."

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	:	Move out of dangerous area. Consult a physician. Show this safety data sheet to the doctor in attendance.
If inhaled	:	Move to fresh air. Consult a physician after significant exposure.
In case of skin contact	:	Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. If symptoms persist, call a physician.

Date of last issue: 20.03.2024 Revision Date: 16.07.2025		Version 7.0	Print Date 16.07.202
In case of eye contact		Immediately flush eye(s) with plenty of water. Remove contact lenses. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.	
If swallowed		Do not induce vomiting without medical advice Rinse mouth with water. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscie	
4.2 Most important sympto	ns anc	effects, both acute and delayed	
Symptoms		Asthmatic appearance Cough Respiratory disorder Allergic reactions Excessive lachrymation Erythema Headache Dermatitis See Section 11 for more detailed information and symptoms.	on health effects
Risks		irritant effects sensitising effects	
		Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. May cause allergy or asthma symptoms or bro- ties if inhaled. May cause respiratory irritation. Suspected of causing cancer. May cause damage to organs through prolong exposure if inhaled.	
4.3 Indication of any immer	isto m	edical attention and special treatment needed	
Treatment		Treat symptomatically.	

_ _ _

5.1 Extinguishing media		
Suitable extinguishing media	:	In case of fire, use water/water spray/water jet/carbon diox- ide/sand/foam/alcohol resistant foam/chemical powder for extinction.

Date of last issue: 20.03.2024 Revision Date: 16.07.2025		Version 7.0	Print Date 16.07.202
5.2 Special hazards arising from	n the	e substance or mixture	
Hazardous combustion prod- ucts	:	No hazardous combustion products are know	'n
5.3 Advice for firefighters			
Special protective equipment for firefighters	:	In the event of fire, wear self-contained breath	ning apparatus.
Further information	:	Standard procedure for chemical fires.	
SECTION 6: Accidental relea	se i	measures	
6.1 Personal precautions, protection	ctiv	e equipment and emergency procedures	
6.1 Personal precautions, protections Personal precautions	ctiv :		
		Use personal protective equipment.	
Personal precautions		Use personal protective equipment.	
Personal precautions 6.2 Environmental precautions	:	Use personal protective equipment. Deny access to unprotected persons. Do not flush into surface water or sanitary set If the product contaminates rivers and lakes or respective authorities.	
Personal precautions 6.2 Environmental precautions Environmental precautions	:	Use personal protective equipment. Deny access to unprotected persons. Do not flush into surface water or sanitary set If the product contaminates rivers and lakes of respective authorities. inment and cleaning up Soak up with inert absorbent material (e.g. sa acid binder, universal binder, sawdust).	or drains inform and, silica gel,

7.1 Precautions for safe handling

	•	
Advice on safe handling	:	 Avoid formation of aerosol. Avoid exceeding the given occupational exposure limits (see section 8). Do not get in eyes, on skin, or on clothing. For personal protection see section 8. Persons with a history of skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms.

Date of last issue: 20.03.2024 Revision Date: 16.07.2025		Version 7.0	Print Date 16.07.2025
		Follow standard hygiene measures when handlin products	ng chemical
Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.	
Hygiene measures	:	Handle in accordance with good industrial hygie practice. When using do not eat or drink. When smoke. Wash hands before breaks and at the er	using do not
7.2 Conditions for safe storage, i	inc	luding any incompatibilities	
Requirements for storage areas and containers	:	Keep container tightly closed in a dry and well-ve place. Containers which are opened must be can sealed and kept upright to prevent leakage. Stor ance with local regulations.	refully re-
Further information on stor- age stability	:	No decomposition if stored and applied as direct	ed.
7.3 Specific end use(s)			
Specific use(s)	:	Cleaning with aprotic polar solvents must be avo Consult most current local Product Data Sheet p use.

8.2 Exposure controls

Engineering measures

Maintain air concentrations below occupational exposure standards. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

Eye/face protection :	Safety glasses with side-shields conforming to EN166 Eye wash bottle with pure water
Hand protection :	Chemical-resistant, impervious gloves complying with an ap- proved standard must be worn at all times when handling chemical products. Reference number EN 374. Follow manu- facturer specifications. Suitable for short time use or protection against splashes: Butyl rubber/nitrile rubber gloves (> 0,1 mm) Contaminated gloves should be removed. Suitable for permanent exposure: Viton gloves (0.4 mm), breakthrough time >30 min.
Skin and body protection :	Protective clothing (e.g. Safety shoes acc. to EN ISO 20345, long-sleeved working clothing, long trousers). Rubber aprons and protective boots are additionaly recommended for mixing and stirring work.
Respiratory protection :	In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe work- ing limits of the selected respirator. Use a properly fitted NIOSH approved air-purifying or air-fed respirator complying with an approved standard if a risk as- sessment indicates this is necessary. organic vapor filter (Type A) A1: < 1000 ppm; A2: < 5000 ppm; A3: < 10000 ppm Ensure adequate ventilation. This can be achieved by local

	Acute toxicity estimate: 1,5 mg/l Test atmosphere: dust/mist Method: Calculation method	
Acute dermal toxicity	: LD50 Dermal (Rabbit): > 9.400 mg/	/kg
Reaction mass of 4,4'-met cyanate:	ylenediphenyl diisocyanate and o-(pis	socyanatobenzyl) phenyl iso-
Acute inhalation toxicity	: LC50 (Rat): > 2,24 mg/l Exposure time: 4 h Test atmosphere: dust/mist	
	Acute toxicity estimate: 2,24 mg/l Test atmosphere: dust/mist Method: ATE value derived from LI	D50/LC50 value
	Acute toxicity estimate: 0,49 mg/l Test atmosphere: dust/mist Method: ATE value derived from LI	D50/LC50 value
aromatic isocyanate-prep	lymer:	
Acute inhalation toxicity	: LC50: 1,5 mg/l Exposure time: 4 h Test atmosphere: dust/mist Method: Expert judgement	
	Acute toxicity estimate: 1,5 mg/l Test atmosphere: dust/mist Method: Calculation method	
Acute dermal toxicity	: LD50 Dermal (Rabbit): > 9.400 mg/	/kg
Skin corrosion/irritation Causes skin irritation.		
Serious eye damage/eye i Causes serious eye irritation		
Respiratory or skin sensit		
Skin sensitisation May cause an allergic skin r	eaction.	
Respiratory sensitisation	symptoms or breathing difficulties if inha	aled.
Germ cell mutagenicity Not classified due to lack of		

Date of last issue: 20.03.2024 Revision Date: 16.07.2025	Version 7.0	Print Date 16.07.2025
Carcinogenicity Suspected of causing cancer.		
Reproductive toxicity Not classified due to lack of data.		
STOT - single exposure May cause respiratory irritation.		
STOT - repeated exposure May cause damage to organs throug	h prolonged or repeated exposure	e if inhaled.
Aspiration toxicity Not classified due to lack of data.		
11.2 Information on other hazards		
Endocrine disrupting properties		
Product:		

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 12: Ecological information

12.1 Toxicity

Components:

Diphenylmethanediisocyanate, isomeres and homologues:

Toxicity to fish	:	LC50 (Brachydanio rerio (zebrafish)): > 1.000 mg/l Exposure time: 96 h
Toxicity to algae/aquatic plants	:	EC50 (Desmodesmus subspicatus (green algae)): > 1.640 mg/l Exposure time: 72 h

aromatic isocyanate-prepolymer:

Toxicity to fish	:	LC50 (Danio rerio (zebra fish)): > 1.000 mg/l
		Exposure time: 96 h

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential

No data available

Date of last issue: 20.03.2024 Revision Date: 16.07.2025	Version 7.0	Print Date 16.07.2025
12.4 Mobility in soil No data available 12.5 Results of PBT and vPvB ass	essment	
Product:		
Assessment	 This substance/mixture contains no component to be either persistent, bioaccumulative and t very persistent and very bioaccumulative (vP 0.1% or higher 	toxic (PBT), or
12.6 Endocrine disrupting propert	ies	
Product:		
Assessment	 The substance/mixture does not contain comered to have endocrine disrupting properties REACH Article 57(f) or Commission Delegate (EU) 2017/2100 or Commission Regulation (levels of 0.1% or higher. 	according to ed regulation
12.7 Other adverse effects		
Product:		
Additional ecological infor- mation	: There is no data available for this product.	

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	 The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
European Waste Catalogue	: 08 05 01* waste isocyanates
Contaminated packaging	: 15 01 10* packaging containing residues of or contaminated by dangerous substances

Date of last issue: 20.03.2024 Revision Date: 16.07.2025 Version 7.0

Print Date 16.07.2025

SECTION 14: Transport information

14.1 UN number or ID number

ADR	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
ΙΑΤΑ	:	Not regulated as a dangerous good
14.2 UN proper shipping name		
ADR	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
ΙΑΤΑ	:	Not regulated as a dangerous good
14.3 Transport hazard class(es)		
ADR	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
ΙΑΤΑ	:	Not regulated as a dangerous good
14.4 Packing group		
ADR	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
IATA (Cargo)	:	Not regulated as a dangerous good
IATA (Passenger)	:	Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Not applicable

14.7 Maritime transport in bulk according to IMO instruments Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Relevant EU provisions transposed through retained EU law

UK REACH List of restrictions (Annex 17)	:	Banned and/or restricted
UK REACH Candidate list of substances of very high concern (SVHC) for Authorisation	:	Not applicable

Date of last issue: 20.03.2024 Revision Date: 16.07.2025	Version	7.0	0 Print Date 16.07	.2025
The Persistent Organic Pollutant Regulation (EU) 2019/1021 as ar ain)		I :	: Not applicable	
International Chemical Weapons Schedules of Toxic Chemicals ar		:	: Not applicable	
Regulation (EU) No 2024/590 on plete the ozone layer	substances that de-	:	: Not applicable	
UK REACH List of substances su (Annex XIV)	ubject to authorisation	:	: Not applicable	
GB Export and import of hazardo Informed Consent (PIC) Regulati		:	: Not applicable	
Control of Major Accident Hazarc 2015 (COMAH)	ls Regulations	No	lot applicable	
Volatile organic compounds :	Law on the incentive (VOCV) no VOC duties	tax	c for volatile organic compounds	
			² 24 November 2010 on industrial and ons (integrated pollution prevention	
			avided elequipers in the Sefety Deta	

If other regulatory information applies that is not already provided elsewhere in the Safety Data Sheet, then it is described in this subsection.

Health, safety and environ-	: Environmental Protection Act 1990 & Subsidiary Regulations
mental regulation/legislation	Health and Safety at Work Act 1974 & Subsidiary Regulations
specific for the substance or	Control of Substances Hazardous to Health Regulations
mixture:	(COSHH)
	May be subject to the Control of Major Accident Hazards Regulations (COMAH), and amendments.

15.2 Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

SikaPower®-2950 Part A

Date of last issue: 20.03.2024 Revision Date: 16.07.2025 Version 7.0
