

PRODUCT DATA SHEET

P30 Protector

A long-lasting inhibitor suitable for all central heating systems

PRODUCT DESCRIPTION

Everbuild P30 Protector is a high performance, long-lasting, easy to use inhibitor that protects domestic heating systems against internal corrosion, limescale and hydrogen gassing. This product has enhanced pH buffering capabilities to ensure the system water pH level does not drop below 8.0 or exceed 8.5. Everbuild P30 Protector is a neutral, non-hazardous product that is compatible with all metals and materials commonly used in central heating systems.

USES

Actively protects against:

- Corrosion
- Limescale
- Debris
- Hydrogen gassing
- Sludge

PRODUCT INFORMATION

Packaging	500 ml bottle
Appearance / Colour	Straw coloured liquid
Shelf Life	36 months from date of manufacture
Storage Conditions	Store in tightly closed original container and keep in a dry, cool and well ventilated place. Keep away from freezing. Store at temperatures above 5 °C

VALUE BASE

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

CHARACTERISTICS / ADVANTAGES

- Provides long-term protection
- Increases heating efficiency and extends the life of boilers
- Suitable for all central heating systems
- Concentrated formula - one bottle treats 100 L/ up to 12 radiators
- BS 7593: 2019 Part L Compliant

APPROVALS / STANDARDS

Benchmark approved
Energy Saving Trust endorsed
NSF Approved

REGULATION (EC) NO 1907/2006 - REACH

APPLICATION INSTRUCTIONS

- Suitable for open vented and sealed systems
- Add to the central heating system via the header tank, system filter, power-flush machine or dosing vessel

- Suitable for use with all types of water, including softened water and deionised water
- For softened water, a double dose is recommended
- To comply with BS 7593: 2019 Everbuild P30 Protector or should be checked and re-dosed annually
- It is advised that this product is used along with Everbuild Universal Protector Test Kit, to ensure optimum levels of inhibitor/protector are added to the system

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
