

## PRODUCT DATA SHEET

# SikaRoof® Wildflower Seed UK

Wildflower seed mix for use with bio-diverse green roofs

### PRODUCT DESCRIPTION

SikaRoof® Wildflower Seed UK is a specifically chosen and proven seed mix containing 22 species, to encourage Biodiversity on Extensive, Intensive and Podium Roof applications. This mix can be used throughout the UK, but has been designed to mimic the natural plant life that occurs in the South East of England, specifically in the London area.

### USES

Low maintenance solution for use in a bio-diverse green roof build up

### CHARACTERISTICS / ADVANTAGES

- Carefully selected mix of 22 species
- Wide range of habitat to attract pollinators

Minor (Salad Burnet), Silene vulgaris (Bladder Campion)

#### Packaging

Varies dependant on quantity. Sold per gram

#### Shelf Life

12 months from date of delivery

#### Storage Conditions

Store in a cool dark location

### VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

## ECOLOGY, HEALTH AND SAFETY

### REGULATION (EC) NO 1907/2006 - REACH

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

### APPLICATION

Water substrate prior to sowing and irrigate during establishment for optimum results.

Cast at 3g/m onto contoured 75–150 mm SikaRoof® Substrate bio-diverse UK. Seeds are best sown in late Autumn or early Spring, optimum seasons for sufficient warmth and moisture.

### MAINTENANCE

Living roofs with good growing conditions will need annual maintenance for best results. This after-care will involve Spring weeding and Autumn strimming each year.

## LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

### LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
