## Sika®-ComfortFloor® MAKES A STAND

Sika – a global leader in technologically advanced products for the construction industry – is showcasing the revolutionary Sika®-ComfortFloor® liquid applied vinyl floor system at their new stand at The Building Centre, the world’s largest permanent exhibition and single source of information for the construction industry.

‘Exhibiting Sika®-ComfortFloor® in the Product Gallery at The Building Centre provides an ideal opportunity to sample and experience the true quality and versatility of our seamless ComfortFloor® system,’ commented Mark Bushell of Sika. ‘With immense sound deadening capacity, it has a range of applications in public and commercial buildings that many flooring systems just can’t cover.’

Sika®-ComfortFloor® is an attractive alternative to traditional vinyl flooring and carpet. An easily applied, high performance liquid, this hard-wearing system is available in a range of colours to meet numerous aesthetic requirements.

Perfect for applications where exceptional hygiene standards are vital, this seamless flooring surface can be easily cleaned and maintained and is a proven solution for food preparation areas, commercial kitchens, hospitals and other healthcare

facilities. Sika®-ComfortFloor® also has an increased life expectancy – in line with Sika’s commitment to integrating sustainability into its research and development strategy, production processes and entire product range.

Combining innovation in product development, the highest standards of manufacturing and technical expertise, Sika’s comprehensive range of flooring solutions for domestic, commercial and industrial applications will meet and exceed client expectations, industry best practices, and building regulations and legislation.

Established in 1931, The Building Centre on Store Street in Central London provides architects and specifiers with an opportunity to experience new and innovative products and materials that meet the modern methods of design and construction. This allows the professional visitor and members of the public to freely explore the diverse range of products without any commercial pressure.

For further information on Sika’s range of products visit [www.sikaconstruction.co.uk](http://www.sikaconstruction.co.uk) or for general enquiries including technical, on or off site support, please call 0800 1123863.

## FOR MORE INFORMATION:

### WHO WE ARE

Sika Limited is part of the global Sika Group, specialising in the manufacture and supply of chemical based products for construction and industry. Sika is a world-leader in its field with subsidiaries in more than 80 countries, 15,200 employees, and annual sales of CHF 4.8 billion (£3.3bn). We are also committed to providing quality, service, safety and environmental care.

In the UK, we provide market-leading solutions for concrete, waterproofing, roofing, flooring, refurbishment, sealing & bonding, and industry, and have manufacturing sites in Welwyn Garden City, Preston, and Leeds with 700 employees and a turnover of £190 million.

The information, and, in particular, the recommendations relating to the application and end use of Sika® products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users should always refer to the most recent issue of the Product Data Sheet for the product concerned, copies of which will be supplied on request.
