# **Safety Data Sheet**

# 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

## Identification of the substance/preparation

Product name or Trade name:

Sika® Poxicolor® Rapid (Icosit-Poxicolor® Rapid) Part A

Use of the substance/preparation : Chemical product for construction and industry

Company/undertaking identification

Manufacturer/Distributor : Sika Limited

Watchmead Welwyn Garden City

Hertfordshire. AL7 1BQ

**United Kingdom** 

 Telephone no.
 : 01707 394444

 Fax no.
 : 01707 329129

e-mail address of person responsible for this SDS

: EHS@uk.sika.com

Emergency telephone number :

# 2. HAZARDS IDENTIFICATION

The product is classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : R10

Xi; R36/38 R43 N; R51/53

Physical/chemical hazards : Flammable.

**Human health hazards** : Irritating to eyes and skin. May cause sensitisation by skin contact.

**Environmental hazards**: Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic

environment.

**Additional warning phrases**: Contains epoxy constituents. See information supplied by the manufacturer.

See section 11 for more detailed information on health effects and symptoms.

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical family/ : Modified epoxi resin, containing solvent

Characteristics

Ingredient name	CAS number	%	EC number	Classification	
trizinc bis(orthophosphate) reaction product: bisphenol A-(epichlorhydrin) epoxy resin (number average molecular weight <= 700)	7779-90-0 25068-38-6	2.5-25 5-25	231-944-3 500-033-5	N; R50/53 Xi; R36/38 R43 N; R51/53	[1] [1]
xylene	1330-20-7	2.5-10	215-535-7	R10 Xn; R20/21 Xi; R38	[1] [2]
reaction product: bisphenol F-(epichlorhydrin) epoxy resin (number average molecular weight <= 700)	9003-36-5	2.5-5	500-006-8	Xi; R36/38 R43 N; R51/53	[1]
butan-1-ol	71-36-3	3-5	200-751-6	R10 Xn; R22 Xi; R41, R37/38 R67	[1] [2]

Date of issue : 11.05.2009. MSDS no. : 53179 1/7

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

1-methoxy-2-propanol	107-98-2	1-5	203-539-1	R10	[2]
ethylbenzene	100-41-4	1-2.5	202-849-4	F; R11	[1] [2]
				Xn; R20	
Naphtha (petroleum), hydrodesulfurized heavy	64742-82-1	<2.5	265-185-4	R10	[1]
				Xn; R65	
				R66, R67	
				N; R51/53	
See section 16 for the full text of the R-phrases declared above					

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in section 8.

### FIRST AID MEASURES 4.

First-aid measures

Inhalation : Get medical attention if adverse health effects persist or are severe.

Ingestion : Do not induce vomiting unless directed to do so by medical personnel. Maintain an

open airway. Seek immediate medical attention.

Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and

shoes. Wash contaminated clothing thoroughly with water before removing it, or wear

gloves. Continue to rinse for at least 10 minutes. Obtain medical attention if

symptoms occur.

Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower

eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10

minutes. Get medical attention.

: No specific treatment. Treat symptomatically. Contact poison treatment specialist Notes to physician

immediately if large quantities have been ingested or inhaled.

See section 11 for more detailed information on health effects and symptoms.

### 5. FIRE-FIGHTING MEASURES

**Extinguishing media** 

Suitable : Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

Not suitable : Do not use water jet.

Special exposure hazards : Flammable liquid. In a fire or if heated, a pressure increase will occur and the

container may burst, with the risk of a subsequent explosion. Runoff to sewer may

create fire or explosion hazard.

**Hazardous combustion** 

products

Decomposition products may include the following materials:

carbon dioxide carbon monoxide phosphorus oxides halogenated compounds

metal oxide/oxides

Special protective equipment for fire-fighters Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure

### ACCIDENTAL RELEASE MEASURES 6.

Personal precautions

Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Put on appropriate personal protective equipment (see section 8). Evacuate surrounding areas.

Date of issue : 11.05.2009. **MSDS no.** : 53179 2/7

# 6. ACCIDENTAL RELEASE MEASURES

## **Environmental precautions**

: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

### Large spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Use spark-proof tools and explosion-proof equipment.

### Small spill

: Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment.

# 7. HANDLING AND STORAGE

## Handling

Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Avoid release to the environment. Refer to special instructions/safety data sheet. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by earthing and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous.

### Storage

: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

### Packaging materials

**Recommended**: Use original container.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## **Exposure limit values**

Ingredient name	Occupational exposure limits
xylene	EH40/2005 WELs (United Kingdom (UK), 8/2007). Absorbed
	through skin.
	STEL: 441 mg/m³ 15 minute(s).
	STEL: 100 ppm 15 minute(s).
	TWA: 220 mg/m³ 8 hour(s).
	TWA: 50 ppm 8 hour(s).
butan-1-ol	EH40/2005 WELs (United Kingdom (UK), 8/2007). Absorbed
	through skin.
	STEL: 154 mg/m³ 15 minute(s).
	STEL: 50 ppm 15 minute(s).
1-methoxy-2-propanol	EH40/2005 WELs (United Kingdom (UK), 8/2007). Absorbed
	through skin.
	STEL: 560 mg/m³ 15 minute(s).
'	

Date of issue : 11.05.2009. MSDS no. : 53179 3/7

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

STEL: 150 ppm 15 minute(s). TWA: 375 mg/m³ 8 hour(s). TWA: 100 ppm 8 hour(s).

ethylbenzene

EH40/2005 WELs (United Kingdom (UK), 8/2007). Absorbed

through skin.

STEL: 552 mg/m<sup>3</sup> 15 minute(s). STEL: 125 ppm 15 minute(s). TWA: 100 ppm 8 hour(s). TWA: 441 mg/m<sup>3</sup> 8 hour(s).

# Recommended monitoring procedures

: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

### **Exposure controls**

Occupational exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapour or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

Respiratory protection

: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

organic vapour filter (Type A)

A1: < 1000 ppm; A2: < 5000 ppm; A3: < 10000 ppm

**Hand protection** 

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Recommended: Butyl rubber/nitrile rubber gloves.

Eye protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Skin protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: Use barrier skin cream.

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

## **General information**

**Appearance** 

Form : Viscous mass.
Colour : Various.
Odour : Hydrocarbon.

Important health, safety and environmental information

Flash point : Closed cup: ~40°C (104°F)

Date of issue : 11.05.2009. MSDS no. : 53179 4/7

### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Explosion limits** : Lowest known value:

> Lower: 1% (xylene) Highest known value: Upper: 7% (xylene)

Vapour pressure : Highest known value: 0.8 kPa (6 mm Hg) (xylene)

**Density** : ~1.8 g/cm<sup>3</sup> [20°C (68°F)]

Solubility : Insoluble in the following materials: water

### STABILITY AND REACTIVITY 10.

Stability : The product is stable.

Conditions to avoid : Avoid all possible sources of ignition (spark or flame). Do not pressurise, cut, weld,

braze, solder, drill, grind or expose containers to heat or sources of ignition. Avoid release to the environment. Refer to special instructions/safety data sheet.

: Reactive or incompatible with the following materials: Materials to avoid

oxidizing materials

Hazardous decomposition

products

Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

#### 11. TOXICOLOGICAL INFORMATION

### Potential acute health effects

Inhalation : May cause irritation.

Ingestion : Irritating to mouth, throat and stomach.

Skin contact : Irritating to skin. May cause sensitisation by skin contact.

Eye contact Irritating to eyes.

**Chronic effects** Once sensitized, a severe allergic reaction may occur when subsequently exposed to

very low levels.

### 12. **ECOLOGICAL INFORMATION**

**Environmental effects** 

Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

### **DISPOSAL CONSIDERATIONS** 13.

Methods of disposal

The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

European waste catalogue

(EWC)

: 08 01 11\* waste paint and varnish containing organic solvents or other dangerous substances

**Packaging** 

: Completely emptied packaging or practically empty packaging containing dried/cured residues, once relieved of all pressure can be disposed of as non-hazardous waste.

Packaging may still contain hazardous residues and disposal should undertaken by a licensed waste contractor.

Any disposal practice must be in compliance with local and national laws and regulations.

: 11.05.2009. Date of issue **MSDS no.** : 53179 5/7

# 15. REGULATORY INFORMATION

## EU regulations

Classification and labeling have been determined according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and take into account the intended product use.

Hazard symbol or symbols : Xi, N

Irritant, Dangerous for the environment

**Contains** : reaction product: bisphenol A-(epichlorhydrin) epoxy resin (number average

molecular weight <= 700)

reaction product: bisphenol F-(epichlorhydrin) epoxy resin (number average

molecular weight <= 700)

**Risk phrases** : R10- Flammable.

R36/38- Irritating to eyes and skin.

R43- May cause sensitisation by skin contact.

R51/53- Toxic to aquatic organisms, may cause long-term adverse effects in the

aquatic environment.

Safety phrases : S24- Avoid contact with skin.

S37- Wear suitable gloves.

**Additional warning phrases**: Contains epoxy constituents. See information supplied by the manufacturer.

**VOC content (EU)** : VOC (w/w): 14.67%

National regulations

Date of issue : 11.05.2009. MSDS no. : 53179 6/7

# 15. REGULATORY INFORMATION

Regulatory information

: Chemicals (Hazard Information and Packaging for Supply) Regulations 2002 (CHIP

3)

Control of Substances Hazardous to Health Regulations 2002 (COSHH) (as

amended)

Health & Safety at Work Act 1974

Dangerous Substances and Explosive Atmospheres Regulations 2002 (DSEAR)

3. COMPOSITION/INFORMATION ON INGREDIENTS				
See section 16 for the full text of the R-phrases declared above	C; R34 R42/43			

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in section 8.

### FIRST AID MEASURES 4.

### First-aid measures

Inhalation : Get medical attention.

: Do not induce vomiting unless directed to do so by medical personnel. Maintain an Ingestion

open airway. Seek immediate medical attention.

Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and

shoes. Wash contaminated clothing thoroughly with water before removing it, or wear

gloves. Continue to rinse for at least 10 minutes. Get medical attention.

Get medical attention immediately. Immediately flush eyes with plenty of water, Eye contact

occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated

promptly by a physician.

: In case of inhalation of decomposition products in a fire, symptoms may be delayed. Notes to physician

The exposed person may need to be kept under medical surveillance for 48 hours.

See section 11 for more detailed information on health effects and symptoms.

# FIRE-FIGHTING MEASURES

### Extinguishing media

Suitable : Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

Not suitable : Do not use water jet.

Special exposure hazards : Flammable liquid. In a fire or if heated, a pressure increase will occur and the

container may burst, with the risk of a subsequent explosion. Runoff to sewer may

create fire or explosion hazard.

**Hazardous combustion** 

products

Decomposition products may include the following materials:

carbon dioxide carbon monoxide nitrogen oxides

**Special protective** 

equipment for fire-fighters

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure

mode.

### ACCIDENTAL RELEASE MEASURES 6.

Personal precautions

: Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Put on appropriate personal protective equipment (see section 8).

Evacuate surrounding areas.

**Environmental precautions** 

: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental

pollution (sewers, waterways, soil or air).

Large spill

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Use spark-proof tools and explosion-proof equipment.

: 11.05.2009. MSDS no. : 53178 Date of issue 2/7

# 6. ACCIDENTAL RELEASE MEASURES

Small spill

: Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment.

11.05.2009 3/7

# 7. HANDLING AND STORAGE

## Handling

: Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by earthing and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous.

### Storage

: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

## **Packaging materials**

**Recommended**: Use original container.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### **Exposure limit values**

Ingredient name	Occupational exposure limits
2-methylpropan-1-ol	EH40/2005 WELs (United Kingdom (UK), 8/2007).

	through skin.
	STEL: 154 mg/m³ 15 minute(s).
	STEL: 50 ppm 15 minute(s).

Date of issue : 11.05.2009. MSDS no. : 53178 3/7

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Recommended monitoring procedures

: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

### **Exposure controls**

Occupational exposure

controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapour or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

Respiratory protection

: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

organic vapour filter (Type A)

A1: < 1000 ppm; A2: < 5000 ppm; A3: < 10000 ppm

Hand protection

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Recommended: Butyl rubber/nitrile rubber gloves.

Eye protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Skin protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: Use barrier skin cream.

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

### **General information**

**Appearance** 

Form : Liquid.
Colour : Orange.
Odour : Amine-like.

## Important health, safety and environmental information

Flash point : Closed cup: ~34°C (93.2°F)

**Explosion limits** : Lowest known value:

Lower: 1% (xylene) Upper: 7% (xylene)

Vapour pressure : Highest known value: 1.2 kPa (9 mm Hg) (2-methylpropan-1-ol)

**Density** :  $\sim 0.9 \text{ g/cm}^3 [20^{\circ}\text{C } (68^{\circ}\text{F})]$ 

**Solubility** : Insoluble in the following materials: water

Date of issue : 11.05.2009. MSDS no. : 53178 4/7

# 10. STABILITY AND REACTIVITY

Stability

: The product is stable.

Conditions to avoid

: Avoid all possible sources of ignition (spark or flame). Do not pressurise, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.

Materials to avoid

Reactive or incompatible with the following materials:

oxidizing materials

Hazardous decomposition

products

Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

## 11. TOXICOLOGICAL INFORMATION

## Potential acute health effects

Inhalation

: Harmful by inhalation. Irritating to respiratory system.

Ingestion

: Irritating to mouth, throat and stomach.

Skin contact Eye contact

: Severely irritating to eyes. Risk of serious damage to eyes.

**Chronic effects** 

: No known significant effects or critical hazards.

: Harmful in contact with skin. Irritating to skin.

## 12. ECOLOGICAL INFORMATION

**Environmental effects** 

: Avoid contact of spilt material and runoff with soil and surface waterways. Do not empty into drains; dispose of this material and its container in a safe way.

# 13. DISPOSAL CONSIDERATIONS

Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

European waste catalogue (EWC)

: 08 01 11\* waste paint and varnish containing organic solvents or other dangerous

substances

**Packaging** 

: Completely emptied packaging or practically empty packaging containing dried/cured residues, once relieved of all pressure can be disposed of as non-hazardous waste.

Packaging may still contain hazardous residues and disposal should undertaken by a licensed waste contractor.

Any disposal practice must be in compliance with local and national laws and regulations.

15 01 10\* packaging containing residues of or contaminated by dangerous substances

# 14. TRANSPORT INFORMATION

## International transport regulations

**ADR** 

UN number : UN1263

ADR Class : 3 Classification code : F1

Date of issue : 11.05.2009. MSDS no. : 53178 5/7

### TRANSPORT INFORMATION 14.

(EmS)

Marine pollutant : No. Label no. : 3

**IATA** 

**UN** number : UN1263

**IATA Class** : 3 : 111 Packing group Proper shipping name : Paint Label no. : 3

#### **15**. REGULATORY INFORMATION

### EU regulations

Classification and labeling have been determined according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and take into account the intended product use.

Hazard symbol or symbols : Xn

Harmful

**Contains** : xylene

Risk phrases : R10- Flammable.

R20/21- Harmful by inhalation and in contact with skin.

R41- Risk of serious damage to eyes.

R37/38- Irritating to respiratory system and skin.

Safety phrases : S26- In case of contact with eyes, rinse immediately with plenty of water and seek

medical advice.

S36/37/39- Wear suitable protective clothing, gloves and eye/face protection.

**Additional warning phrases**: Contains Ethylenediamine. May produce an allergic reaction.

**VOC** content (EU) : VOC (w/w): 39.71%

National regulations

Regulatory information : Chemicals (Hazard Information and Packaging for Supply) Regulations 2002 (CHIP

Control of Substances Hazardous to Health Regulations 2002 (COSHH) (as

amended)

Health & Safety at Work Act 1974

Dangerous Substances and Explosive Atmospheres Regulations 2002 (DSEAR)

The Environmental Protection (Duty of Care) Regulations 1991

Hazardous waste regulations 2005

The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment

Regulations 2007

**Guidance Publications** Approved Code of Practice - Management of Health and Safety at Work, HSE

General Approved Code of Practice to COSHH Regulations, HSE.

EH40, Workplace Exposure Limits, HSE (as updated).
