

Sika® Drain-850 Geo

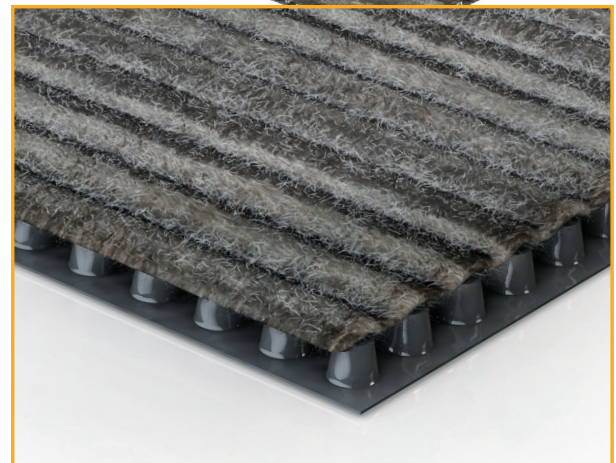

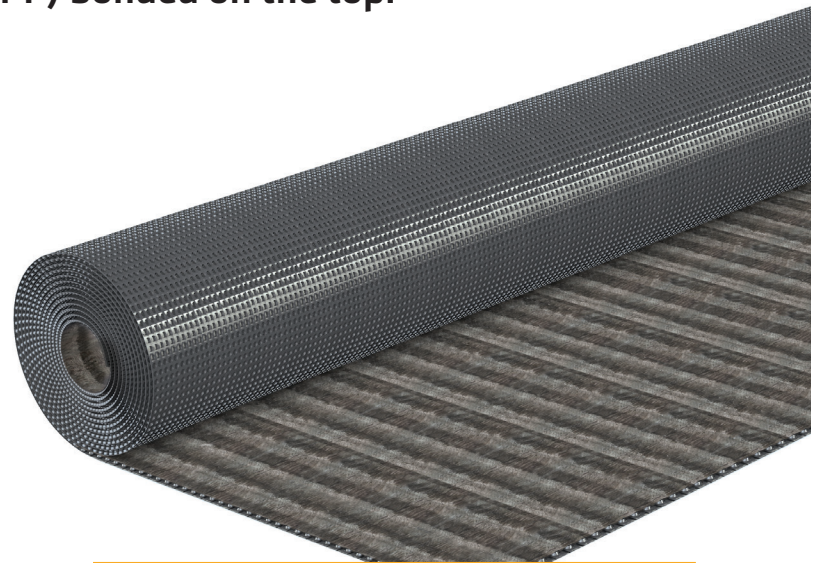

PROTECTION BOARD WITH DRAINAGE

Sika® Drain-850 Geo is a heavy duty drainage and protection sheet produced from high density polyethylene (HDPE) with dimples 10mm high and a filtration layer of geotextile (PP) bonded on the top.

Used for: Protection and drainage for preformed sheet membrane waterproofing systems, liquid applied membranes and with the Sika White Box concept for waterproofing retaining walls and heavy duty roofs/podiums.

BENEFITS:

- HIGH DRAINAGE CAPACITY AND MECHANICAL RESISTANCE
- RESISTANT TO ALL NATURAL AGGRESSIVE MEDIUMS IN GROUND WATER AND SOILS
- SUITABLE FOR CONTACT WITH SOFT WATER (AGGRESSIVE TO CONCRETE)
- CAN BE INSTALLED ON DAMP AND WET SUBSTRATES
