

## PRODUCT DATA SHEET

# Cromar® PROGRP Acetone

Solvent for use with GRP application

## PRODUCT DESCRIPTION

Cromar® PROGRP Acetone is a highly useful product, and serves a dual purpose of cleaning GRP tools like buckets and rollers and preparing the roof surface before applying the topcoat. Plays a vital role in roof preparation, including wiping down edge trims and removing dust from sanded areas post-resin coat application.

## USES

- Roof preparation.
- Used after application and sanding down of first coat of resin.
- Helps reduce the amount of hardened fibres sticking out of the surface for a cleaner finish.
- Used to clean GRP application tools.

## PRODUCT INFORMATION

Packaging	1, 5 and 25 litre container
Colour	Clear
Shelf Life	24 months
Storage Conditions	The product must be stored properly in original, unopened and undamaged sealed packaging, in dry conditions at temperatures between +5 °C and +30 °C. This is highly flammable - store appropriately.

## VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

## ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other

safety-related data.

## LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

## LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
