

Date of last issue: 06.03.2025	Version 4.0	Print Date 11.03.2025
Revision Date: 11.03.2025		

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : SikaBiresin® UR303 (Biresin U1303) Part A

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : Tooling system, Product is not intended for consumer use

1.3 Details of the supplier of the safety data sheet

Company name of supplier	:	Sika Limited
		Watchmead Welwyn Garden City
		Hertfordshire. AL7 1BQ
Telephone	:	+44 (0)1707 394444
Telefax	:	+44 (0)1707 329129
E-mail address of person	:	EHS@uk.sika.com
responsible for the SDS		

1.4 Emergency telephone number

National Chemical Emergency Centre (NCEC) 24 Hour Emergency Telephone Number +44 870 190 6777

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Acute toxicity, Category 4	H332: Harmful if inhaled.
Respiratory sensitisation, Category 1	H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms		
Signal word	: Danger	
Hazard statements	: H317 May cause	e an allergic skin reaction.

Date of last issue: 06.03.2025 Revision Date: 11.03.2025	Ň	/ersion 4.0	Print Date 11.03.2025
	H334 M	armful if inhaled. ay cause allergy or asthma sympto g difficulties if inhaled.	ms or breath-
Precautionary statements :	Prevention: P261 P280 P284	Avoid breathing mist or vapours Wear protective gloves. In case of inadequate ventilation atory protection.	
	Response:		
	P304 + P340 +	P312 IF INHALED: Remove per air and keep comfortable for bre POISON CENTER/ doctor if you	athing. Call a
	P333 + P313	If skin irritation or rash occurs: G advice/ attention.	
	P342 + P311	If experiencing respiratory symp POISON CENTER/ doctor.	toms: Call a

Hazardous components which must be listed on the label:

4,4'-methylenedi(cyclohexyl isocyanate)

Additional Labelling

"As from 24 August 2023 adequate training is required before industrial or professional use."

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Date of last issue: 06.03.2025 Revision Date: 11.03.2025 Version 4.0

Print Date 11.03.2025

SECTION 3: Composition/information on ingredients

3.2 Mixtures

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	:	Move out of dangerous area. Consult a physician. Show this safety data sheet to the doctor in attendance.
If inhaled	:	Move to fresh air. Consult a physician after significant exposure.
In case of skin contact	:	Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water.

Date of last issue: 06.03.2025 Revision Date: 11.03.2025	Version 4.0	Print Date 11.03.202
	If symptoms persist, call a physician.	
In case of eye contact	: Remove contact lenses. Keep eye wide open while rinsing. If eye irritation persists, consult a specia	alist.
If swallowed	: Do not induce vomiting without medical Rinse mouth with water. Do not give milk or alcoholic beverages. Never give anything by mouth to an unc

SikaBiresin[®] UR303 (Biresin U1303) Part A

Date of last issue: 06.03.2025	
Revision Date: 11.03.2025	

Version 4.0

Print Date 11.03.2025

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures		
Personal precautions	:	Use personal protective equipment. Deny access to unprotected persons.

6.2 Environmental precautions

Environmental precautions : Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	: Soak up with inert absorbent material (e.g. sand, silica gel,
	acid binder, universal binder, sawdust).
	Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	:	 Avoid formation of aerosol. Avoid exceeding the given occupational exposure limits (see section 8). Do not get in eyes, on skin, or on clothing. For personal protection see section 8. Persons with a history of skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. Follow standard hygiene measures when handling chemical products
Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Hygiene measures	:	Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

Date of last issue: 06.03.2025 Revision Date: 11.03.2025	Version 4.0	Print Date 11.03.2025
7.2 Conditions for safe storage, in	cluding any incompatibilities	
Requirements for storage areas and containers	Keep container tightly closed in a dry and place. Containers which are opened must sealed and kept upright to prevent leakag ance with local regulations.	t be carefully re-
Further information on stor- age stability	No decomposition if stored and applied as	s directed.
7.3 Specific end use(s)		
Specific use(s)	Consult most current local Product Data S use.	Sheet prior to any

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form	Control parame-	Basis *		
		of exposure)	ters *			
4,4'-methylenedi(cyclohexyl isocyanate)	5124-30-1	TWA	0,02 mg/m3 (NCO)	GB EH40		
	Further inform	nation: Substances t	hat can cause occ	upational		
		known as asthmage				
		state of specific airw				
	•	al irritant or other me				
		er-responsive, further				
		ven in tiny quantities				
		symptoms can range				
	asthma. Not all workers who are exposed to a sensitiser will be-					
	come hyper-responsive and it is impossible to identify in advance					
	those who are likely to become hyper-responsive. Substances					
	that can cause occupational asthma should be distinguished from					
	substances which may trigger the symptoms of asthma in people					
	with pre-existing airway hyper-responsiveness, but which do not					
	include the disease themselves. The latter substances are not					
	classified as asthmagens or respiratory sensitisers. Further infor-					
	mation can be found in the HSE publication Asthmagen? Critical					
	assessments of the evidence for agents implicated in occupation					
	asthma., Wherever it is reasonably practicable, exposure to sub- stances that can cause occupational asthma should be prevented					
	Where this is not possible, the primary aim is to apply adequate					
	standards of control to prevent workers from becoming hyper- responsive. For substances that can cause occupational asthma,					
	COSHH requires that exposure be reduced to as low as is rea-					
	sonably practicable. Activities giving rise to short-term peak con-					
	centrations should receive particular attention when risk manage-					
	ment is being considered. Health surveillance is appropriate for a					
	employees exposed or liable to be exposed to a substance which					

Date of last issue: 06.03.2025 Revision Date: 11.03.2025	Version	4.0	Print Da	te 11.03.2025

		STEL	0,07 mg/m3 (NCO)	GB EH40

*The above mentioned values are in accordance with the legislation in effect at the date of the release of this safety data sheet.

Biological occupational exposure limits

Substance name	CAS-No.	Control parame- ters	Sampling time	Basis
4,4'-methylenedi(cyclohexyl isocya- nate)	5124-30-1	isocyanate- derived diamine (Isocyanates): 1 µmol/mol creati- nine (Urine)	At the end of the period of expo- sure	GB EH40 BAT

8.2 Exposure controls

Engineering measures

Maintain air concentrations below occupational exposure standards. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

Eye/face protection	:	Safety glasses with side-shields conforming to EN166 Eye wash bottle with pure water
Hand protection	:	Chemical-resistant, impervious gloves complying with an ap- proved standard must be worn at all times when handling chemical products. Reference number EN 374. Follow manu- facturer specifications. Suitable for short time use or protection against splashes: Butyl rubber/nitrile rubber gloves (> 0,1 mm) Contaminated gloves should be removed. Suitable for permanent exposure: Viton gloves (0.4 mm), breakthrough time >30 min.
Skin and body protection	:	Protective clothing (e.g. Safety shoes acc. to EN ISO 20345, long-sleeved working clothing, long trousers). Rubber aprons and protective boots are additionaly recommended for mixing and stirring work.
Respiratory protection	:	In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe work-
untry GB_00000003681		7/

Date of last issue: 06.03.2025 Revision Date: 11.03.2025	Version 4.0	Print Date 11.03.2025		
	ing limits of the selected respirator. Use a properly fitted NIOSH approved air-pur respirator complying with an approved standar sessment indicates this is necessary. organic vapor filter (Type A) A1: < 1000 ppm; A2: < 5000 ppm; A3: < 1000 Ensure adequate ventilation. This can be ach exhaust extraction or by general ventilation. (I ods for determining inhalation exposure). This ticular to the mixing / stirring area. In case this to keep the concentrations under the occupat limits then respiration protection measures me Ensure adequate ventilation, especially in cor	ard if a risk as- 00 ppm ieved by local EN 689 - Meth- s applies in par- s is not sufficent ional exposure ust be used.		
Environmental exposure controls				
General advice	 Do not flush into surface water or sanitary sev If the product contaminates rivers and lakes or respective authorities. 			

SECTION 9: Physical and chemical properties

9.2 Other information

No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

The product is chemically stable.

10.3 Possibility of hazardous reactions

Date of last issue: 06.03.2025 Revision Date: 11.03.2025		Version 4.0	Print Date 11.03.2025	
Hazardous reactions	:	No hazards to be specially mentioned.		
10.4 Conditions to avoid Conditions to avoid	:	No data available		
10.5 Incompatible materials Materials to avoid	:	No data available		
10.6 Hazardous decomposition products				
	:	No hazardous decomposition products are know	n.	

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Harmful if inhaled.

Components:

4,4'-methylenedi(cyclohexyl isocyanate):

Acute oral toxicity	:	LD50 Oral (Rat): 18.200 mg/kg
Acute inhalation toxicity	:	LC50 (Rat): ca. 0,33 mg/l Exposure time: 4 h Test atmosphere: dust/mist
		Acute toxicity estimate: 0,33 mg/l Test atmosphere: dust/mist Method: Calculation method
Acute dermal toxicity	:	LD50 Dermal (Rat): > 7.000 mg/kg
Skin corrosion/irritation		

Not classified due to lack of data.

Serious eye damage/eye irritation

Not classified due to lack of data.

Respiratory or skin sensitisation

Skin sensitisation

May cause an allergic skin reaction.

Respiratory sensitisation

May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Date of last issue: 06.03.2025 Revision Date: 11.03.2025	Version 4.0	Print Date 11.03.2025
Germ cell mutagenicity Not classified due to lack of data.		
Carcinogenicity Not classified due to lack of data.		
Reproductive toxicity Not classified due to lack of data.		
STOT - single exposure Not classified due to lack of data.		
STOT - repeated exposure Not classified due to lack of data.		
Aspiration toxicity Not classified due to lack of data.		
11.2 Information on other hazards		
Endocrine disrupting propertie Not classified due to lack of data.	S

Revision Date: 11.03.2025		

12.6 Endocrine disrupting properties

Product:

Assessment	:	The substance/mixture does not contain components consid- ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
7 Other adverse affects		

12.7 Other adverse effects

Product:

Additional ecological infor-	:	There is no data available for this product.
mation		

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

The generation of waste should be avoided or minimized wherever possible.
Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way.
Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.
Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

14.1 UN number or ID number			
ADR	:	Not regulated as a dangerous good	
IMDG	:	Not regulated as a dangerous good	
ΙΑΤΑ	:	Not regulated as a dangerous good	
14.2 UN proper shipping name			
ADR	:	Not regulated as a dangerous good	
IMDG	:	Not regulated as a dangerous good
