Revision Date: 09.03.2023		

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : Sika[®] Primer-204 N

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : Pretreatment agent

1.3 Details of the supplier of the safety data sheet

Company name of supplier	:	Sika Limited
		Watchmead Welwyn Garden City
		Hertfordshire. AL7 1BQ
Telephone	:	+44 (0)1707 394444
Telefax	:	+44 (0)1707 329129
E-mail address of person	:	EHS@uk.sika.com
responsible for the SDS		-

1.4 Emergency telephone number

National Chemical Emergency Centre (NCEC) 24 Hour Emergency Telephone Number +44 870 190 6777

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 2 Eye irritation, Category 2 Specific target organ toxicity - single ex- posure, Category 3, Central nervous system	H225: Highly flammable liquid and vapour. H319: Causes serious eye irritation. H336: May cause drowsiness or dizziness.
Long-term (chronic) aquatic hazard, Cat- egory 3	H412: Harmful to aquatic life with long lasting ef- fects.
Label elements	

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms	:		!
Signal word	:	Danger	•
Hazard statements	:	H225 H319	Highly flammable liquid and vapour. Causes serious eye irritation.

2.2

Date of last issue: 07.03.2023 Revision Date: 09.03.2023		Version 9.2 Print Dat		Print Date 09.03.2023
		H336 H412	May cause drowsiness or dizzir Harmful to aquatic life with long fects.	
Supplemental Hazard Statements	:	EUH066	Repeated exposure may cause or cracking.	skin dryness
Precautionary statements	:	Prevention: P210 P233 P261	Keep away from heat, hot surfa open flames and other ignition s smoking. Keep container tightly closed. Avoid breathing mist or vapours	sources. No
		P273 P280	Avoid release to the environmen Wear protective gloves/ protecti eye protection/ face protection.	nt.
		Response: P370 + P378	In case of fire: Use dry sand, dr alcohol-resistant foam to exting	5

Hazardous components which must be listed on the label:

n-butyl acetate

Additional Labelling

EUH204 Contains isocyanates. May produce an allergic reaction.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Devision Date: 00.02.2022	Date of last issue: 07.03.2023
Revision Date: 09.03.2023	Revision Date: 09.03.2023

SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

4.1 Description of first aid mea	sures		
General advice	: Move out of dangerous area. Consult a physician. Show this safety data sheet to the doctor in attendance.		
If inhaled	: Move to fresh air. Consult a physician after significant exposure.		
In case of skin contact	 Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. If symptoms persist, call a physician. 		
In case of eye contact	 Immediately flush eye(s) with plenty of water. Remove contact lenses. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist. 		
If swallowed	 Do not induce vomiting without medical advice. Rinse mouth with water. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. 		
4.2 Most important symptoms	and effects, both acute and delayed		
Symptoms	: Excessive lachrymation Erythema Loss of balance Vertigo See Section 11 for more detailed information on health effects and symptoms.		
Risks	: irritant effects		
	Causes serious eye irritation. May cause drowsiness or dizziness. Repeated exposure may cause skin dryness or cracking.		
4.3 Indication of any immediate medical attention and special treatment needed			
Treatment	: Treat symptomatically.		
SECTION 5: Firefighting me	asures		
5.1 Extinguishing media			

Suitable extinguishing media : Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical

Date of last issue: 07.03.2023 Revision Date: 09.03.2023		Version 9.2	Print Date 09.03.202
		Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical	
Unsuitable extinguishing media	:	Water	
		Water	
5.2 Special hazards arising from	th	e substance or mixture	
Specific hazards during fire- fighting	:	Do not allow run-off from fire fighting to enter courses.	drains or water
Hazardous combustion prod- ucts	:	No hazardous combustion products are know	vn
		No hazardous combustion products are know	vn
5.3 Advice for firefighters			
Special protective equipment for firefighters	:	In the event of fire, wear self-contained breat	hing apparatus.
Further information	:	Use water spray to cool unopened containers	5.
SECTION 6: Accidental releas		measures e equipment and emergency procedures	
Personal precautions	:	Use personal protective equipment. Remove all sources of ignition. Deny access to unprotected persons.	

6.2 Environmental precautions

Environmental precautions	:	Prevent product from entering drains. If the product contaminates rivers and lakes or drains inform
		respective authorities.

Beware of vapours accumulating to form explosive concentra-

tions. Vapours can accumulate in low areas.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Contain spillage, and then collect with non-combustible ab-
		sorbent material, (e.g. sand, earth, diatomaceous earth, ver-
		miculite) and place in container for disposal according to local
		/ national regulations (see section 13).

Date of last issue: 07.03.2023
Revision Date: 09.03.2023

Version 9.2

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

	Advice on safe handling	:	Do not breathe vapours or spray mist. Avoid exceeding the given occupational exposure limits (see section 8). Do not get in eyes, on skin, or on clothing. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the ap- plication area. Take precautionary measures against static discharge. Open drum carefully as content may be under pressure. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Follow standard hygiene measures when handling chemical products
	Advice on protection against fire and explosion	:	Use explosion-proof equipment. Keep away from heat/ sparks/ open flames/ hot surfaces. No smoking. Take precautionary measures against electrostatic discharges.
	Hygiene measures	:	Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
7.2	Conditions for safe storage, i	ncl	uding any incompatibilities
	Requirements for storage areas and containers	:	Store in cool place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store in accordance with local regulations.
	Further information on stor-	:	No decomposition if stored and applied as directed.
	age stability		No decomposition if stored and applied as directed.
7.3	Specific end use(s)		
	Specific use(s)	:	Consult most current local Product Data Sheet prior to any use.

SECTION 8: Exposure controls/personal protection

		hich may trigger the				
		ng airway hyper-re				
		sease themselves.				
		asthmagens or resp				
		found in the HSE		•		
	assessments of the evidence for agents implicated in occupational					
	asthma., Wherever it is reasonably practicable, exposure to sub-					
	stances that can cause occupational asthma should be prevented. Where this is not possible, the primary aim is to apply adequate					
	standards of control to prevent workers from becoming hyper-					
	responsive. For substances that can cause occupational asthma,					
	COSHH requires that exposure be reduced to as low as is rea-					
	sonably practicable. Activities giving rise to short-term peak con-					
	centrations should receive particular attention when risk manage- ment is being considered. Health surveillance is appropriate for all					
	employees exposed or liable to be exposed to a substance which					
	may cause occupational asthma and there should be appropriate					
	consultation with an occupational health professional over the					
	degree of risk and level of surveillance., Capable of causing occu-					
	pational asthma., The 'Sen' notation in the list of WELs has been					
	assigned only to those substances which may cause occupational					
	asthma in the categories shown in Table 1. It should be remem-					
	bered that other substances not in these tables may cause occu-					
	pational asthma. HSE's asthma web pages					
	(www.hse.gov.uk/asthma) provide further information.					
		STEL	0,07 mg/m3 (NCO)	GB EH40

8.2 Exposure controls

Engineering measures

Maintain air concentrations below occupational exposure standards. Ensure adequate ventilation, especially in confined areas.

Persona	I protective	equipment
---------	--------------	-----------

Eye/face protection : Hand protection :	Safety glasses with side-shields conforming to EN166 Eye wash bottle with pure water Chemical-resistant, impervious gloves complying with an ap- proved standard must be worn at all times when handling chemical products. Reference number EN 374. Follow manu- facturer specifications.
	Suitable for short time use or protection against splashes: Butyl rubber/nitrile rubber gloves (> 0,1 mm) Contaminated gloves should be removed. Suitable for permanent exposure: Viton gloves (0.4 mm), breakthrough time >30 min.
Skin and body protection :	Protective clothing (e.g. Safety shoes acc. to EN ISO 20345, long-sleeved working clothing, long trousers). Rubber aprons and protective boots are additionaly recommended for mixing and stirring work.
Respiratory protection :	In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe work- ing limits of the selected respirator. organic vapor filter (Type A) A1: < 1000 ppm; A2: < 5000 ppm; A3: < 10000 ppm Ensure adequate ventilation. This can be achieved by local exhaust extraction or by general ventilation. (EN 689 - Meth- ods for determining inhalation exposure). This applies in par- ticular to the mixing / stirring area. In case this is not sufficent to keep the concentrations under the occupational exposure limits then respiration protection measures must be used.
Environmental exposure control	ols
General advice :	Prevent product from entering drains. If the product contaminates rivers and lakes or drains inform

Skin corrosion/irritation

Repeated exposure may cause skin dryness or cracking.

Components:

n-butyl acetate:

Result

Repeated exposure may cause skin dryness or cracking.

Serious eye damage/eye irritation

Causes serious eye irritation.

Respiratory or skin sensitisation

Skin sensitisation

Not classified based on available information.

Respiratory sensitisation

Not classified based on available information.

Germ cell mutagenicity

Not classified based on available information.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

STOT - single exposure

May cause drowsiness or dizziness.

STOT - repeated exposure

Not classified based on available information.

Aspiration toxicity

Not classified based on available information.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at

Date of last issue: 07.03.2023 Revision Date: 09.03.2023	Version 9.2	Print Date 09.03.2023
	levels of 0.1% or higher.	
SECTION 12: Ecological inform	ation	
12.1 Toxicity		
Components:

	rovided herein are for informational purposes ckaged material as it is described within this :	

upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

Date of last issue: 07.03.2023	Version 9.2	Print Date 09.03.2023
Revision Date: 09.03.2023		

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Relevant EU provisions transposed through retained EU law

UK REACH List of restrictions (Annex 17)		:	Not applicable
International Chemical Weapons Convention (CWC) Schedules of Toxic Chemicals and Precursors		:	Not applicable
Regulation (EC) No 1005/2009 or plete the ozone layer	n substances that de-	:	Not applicable
GB Export and import of hazardous chemicals - Prior : Not applicable Informed Consent (PIC) Regulation			
Control of Major Accident Hazards Regulations P5c FLAMMABLE LIQUIDS 2015 (COMAH)			AMMABLE LIQUIDS
Volatile organic compounds :	Law on the incentive tax for volatile organic compounds (VOCV) Volatile organic compounds (VOC) content: 59,6% w/w		
emissions (integ		ollu	4 November 2010 on industrial ution prevention and control) ds (VOC) content: 63,7% w/w

If other regulatory information applies that is not already provided elsewhere in the Safety Data Sheet, then it is described in this subsection.

Health, safety and environ- mental regulation/legislation specific for the substance or mixture:	 Environmental Protection Act 1990 & Subsidiary Regulations Health and Safety at Work Act 1974 & Subsidiary Regulations Control of Substances Hazardous to Health Regulations (COSHH) May be subject to the Control of Major Accident Hazards Regulations (COMAH), and amendments.
	······································

15.2 Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

SECTION 16: Other information
