APPLICATION INSTRUCTIONS

SUBSTRATE QUALITY / PRE-TREATMENT

Always test a small inconspicuous area prior to full application. Ensure all surface dust and debris is re-

CHARACTERISTICS / ADVANTAGES

- Ready to use – no dilution required
- No rinsing required – just spray and wipe
- Fast acting
- Safe and effective – will not harm glued joints, cleans without damaging treated wood or laminate floor.
- Acid free
- Leaves a pleasant scent.

pH _____ 6 - 8 _____

moved by vacuuming or sweeping floor prior to application. Wear suitable latex/rubber gloves.

APPLICATION

Turn the nozzle on the trigger spray to the on position.

Squeeze trigger and spray onto flooring from approx. 10cm away. Use a fine mist over the area to be cleaned taking care not to over wet the surface particularly close to flooring joints. Wipe clean with a soft nonabrasive cloth or mop. A second application may be required on heavily soiled floors.

LIMITATIONS

- Always test a small inconspicuous area prior to full application.
- Not suitable for use on untreated/waxed/oiled wood and waxed marble, copper brass, and block rubber
- Do not over wet surfaces particularly across glued joints. Do not allow product to “pond” on surfaces.
- Only use on floors where all joints have been completely sealed to prevent moisture/water from penetrating. Moisture can cause swelling and distortion.
- Avoid splashes on paints, coloured surfaces and fabrics.
- It is the user’s responsibility to determine suitability for use. If in doubt, please contact Technical Services Department for further advice.
