## PROJECT REQUIREMENT

JD Wetherspoon spent just over £3 million developing the 'Mossy Well' outlet, which opened in October 2015 on Muswell Hill Broadway. It stands on the site of a former pub, The Village, previously the Express Dairy Building.

Extensive refurbishment and adaptations to the building needed to take place due to the existing roofs being in such a bad state. A new section in the centre of the building which formed the barrel/vault roof was built and then installed with Sika Sarnafil membrane to ensure the building would be protected for years to come.

## SIKA SARNAFIL SOLUTION

Registered Sika Sarnafil roofing contractor Hambro Roofing, based in Essex, was specified for the job and awarded the contract after proposing to use Sarnafil single ply for the flat roof repairs. Hambro Roofing were later specified to undertake additional repairs to the pitched roofs and gutters.

The appearance of a traditional zinc roof covering was required by the client and therefore this led to the specification of the Sika Sarnafil G410-15 FSA self-adhesive with décor profiling. Ideal for the job, this system is light weight, cost effective whilst also aesthetically pleasing. Other installation details included SarnaTherm insulation, SarnaVap vapour barrier and the Sika liquid detailing kit to the guttering.

Built on Hambro Roofing's previous experience this was a highly successful project without any major setbacks and completed in the given timeframe.

The project was very successful and feedback was enormously positive. The client was particularly impressed by the effectiveness of the single-ply solution and the speed in which the project was completed resulting in a stunning single ply roof which fulfilled the architect's vision.

## PROJECT PARTICIPANTS

**Client:** JD Wetherspoon, Muswell Hill

**Contractor:** Hambro Roofing

**Size:** circa 500m<sup>2</sup>

**Product:** Sika Sarnafil G410-15 FSA self-adhesive with décor profiles

Our most current General Sales Conditions shall apply.  
Please consult the Data Sheet prior to any use and processing.
