

SYSTEM DATA SHEET

Sikafloor® MultiDur EB-24

BROADCAST UNICOLOUR EPOXY FLOOR COVERING WITH HIGH MECHANICAL RESISTANCE

PRODUCT DESCRIPTION

Sikafloor® MultiDur EB-24 is a slip resistant, coloured, epoxy covering with high mechanical resistance for flooring applications

USES

Sikafloor® MultiDur EB-24 may only be used by experienced professionals.

- for concrete and cement screeds with normal up to medium heavy wear e.g. storage and assembly halls, maintenance workshops, garages and loading ramps.
- for multi-storey and underground car parks and for wet process areas, e.g. beverage and food industry

CHARACTERISTICS / ADVANTAGES

- High wear resistance
- High mechanical resistance
- Good chemical resistance
- Easy application
- Waterproof
- Gloss finish
- Slip resistant

APPROVALS / STANDARDS

 Fire classification test, Bfl-S1 according to DIN EN 13501-1, Report No.2007-B-0181/15, Germany, July 2007

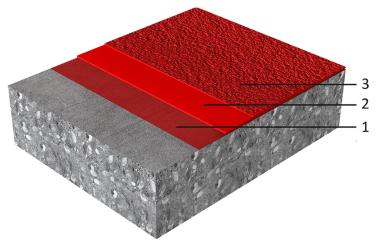

PRODUCT INFORMATION

Packaging	Please refer to the individual Product Data Sheet
Shelf Life	Please refer to the individual Product Data Sheet
Storage Conditions	Please refer to the individual Product Data Sheet

SYSTEM INFORMATION

System Structure

Sikafloor® MultiDur EB-24 system (~ 2–4 mm)

1. Primer	Sikafloor®-156/-161
2. Wearing coat & broadcast in ex-	Sikafloor®-263 SL or
cess	Sikafloor®-264
	broadcast with quartz sand in ex-
	cess
3. Top coat	Sikafloor®-264

Composition	Ероху
Appearance	Slip resistant, gloss finish
Colour	Available in various colour shades.
Nominal Thickness	~2.0–4.0 mm

TECHNICAL INFORMATION

Reaction to Fire	Bfl-S1 (DIN EN 13501-		
Chemical Resistance	Refer to the chemical resistance of Sikafloor®-264		
Thermal Resistance	Exposure*	Dry heat	
	Permanent	+50 °C	
	Short-term max. 7 d	+80 °C	
	Short-term max. 12 h	+100 °C	
	Short-term moist/wet heat* up to +80 °C where exposure is only occasional (i.e. during steam cleaning etc.) *No simultaneous chemical and mechanical exposure.		
Skid / Slip Resistance	R11 V4 (Quartz Sand 0.3-0.8 r	mm) (DIN 51130)	
	R12 V6 (Quartz Sand 0.6-1.2 r	mm) (DIN 51130)	

APPLICATION INFORMATION

Consumption	Sikafloor® MultiDur EB-24 system (~ 2–4mm)			
	Coating System	Product	Consumption	
	Primer	1 x Sikafloor®-156 /- 161	~ 0.3–0.5 kg/m²	
	Wearing coat	Sikafloor®-263 SL or Sikafloor®-264 filled 1:1 with quartz sand 0.06–0.3mm	~ 4 kg /m ² (2 kg/m ² binder + 2 kg/m ² quartz sand)	
	Broadcast in excess	quartz sand 0.3 – 0.8 mm	~ 4–6 kg/m²	
	Top coat	1–2 × Sikafloor®-264	~0.6–0.8 kg/m²	
Product Temperature	Please refer to the individual Product Data Sheet			
Ambient Air Temperature	+10 °C min. / +30 °C r	nax.		
Relative Air Humidity	80 % r.h. max.			
Dew Point	Beware of condensation! The substrate and uncured floor must be at least 3 °C above dew point to reduce the risk of condensation or blooming on the floor finish.			
	+10 °C min. / +30 °C max.

LIMITATIONS

- Do not apply Sikafloor® MultiDur EB-24 on substrates with rising moisture.
- Freshly applied Sikafloor® MultiDur EB-24 must be protected from damp, condensation and water for at least 24 hours.
- The incorrect assessment and treatment of cracks may lead to a reduced service life and reflective

cracking.

- For exact colour matching, ensure the Sikafloor®-264 in each area is applied from the same control batch numbers
- Under certain conditions, underfloor heating or high ambient temperatures combined with high point loading, may lead to imprints in the resin.
- If heating is required do not use gas, oil, paraffin or other fossil fuel heaters, these produce large quantities of both CO₂ and H₂O water vapour, which may adversely affect the finish. For heating use only electric powered warm air blower systems.

VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
