Carrier Membrane

Glass Reinforced Carrier Membrane

Product Description

Sika Liquid Plastics Carrier Membrane incorporates a dimensionally stable glass reinforcement and a modified elastomeric coating, providing a highly effective carrier membrane.

Uses

- Applied on boarded decks and rough substrates before the application of Sika Liquid Plastics Liquid Applied Roof Membranes
- Used as part of the Bonded Preparatory Layer in the Sika Liquid Plastics Inverted Roof System prior to the application of Decothane Root Resistant Base Coat.
- To be used in conjunction with Sika Liquid Plastics’ Decostik®

Product Data

Test

Approvals / Standards

- CE Marked - Tested in accordance with EN 13707:2004

Form

Appearance

- Rolls
- Modified Bitumen Felt

Packaging

- 20m x 1m Rolls
- Approx 36kg in weight

Load at Rupture

- Longitudinal: 300 N/50 mm
- Transverse: 250 N/50 mm

Elongation at Break

- Longitudinal: 3%
- Transverse: 3%

Tearing Nail Test

- Longitudinal: 25 N
- Transverse: 22.5 N

Storage

Storage Conditions / Shelf Life

Store in original packing in a location free from any ignition hazard, such as open flames, cutting and welding torches, high surface temperature electric heaters and other forms of direct radiant heat.

Note: The above rates are for smooth substrates only, rougher surfaces will require more product.

Application Instructions

Application Method

Roll Carrier Membrane over the substrate using Decostik® to bond. Side overlaps are to be 75mm and end overlaps 100mm, all to be sealed with the adhesive.
## Notes on Application

### Value Base

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

### Local Restrictions

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

### Ecology, Health and Safety Information

A Safety Data Sheet following EC-Regulation 1907/2006, Article 31 is not needed to bring the product to the market, to transport or to use it. The product does not damage the environment when used as specified.

### REACH

**European Community Regulation on chemicals and their safe use (REACH: EC 1907/2006)**

This product is an article within the meaning of Regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. Therefore, there are no registration requirements for substances in articles within the meaning of Article 7.1 of the Regulation.

Based on our current knowledge, this product does not contain SVHC (substances of very high concern) from the candidate list published by the European Chemicals Agency in concentrations above 0.1 % (w/w).

### Transportation Class

The product is not classified as hazardous good for transport.

### Disposal

Disposal must be according to local regulations. Please contact your local Sika sales organisation for more information.
General Information

Specification Assistance

NBS is the industry standard specification system, which allows architects, specifiers and engineers to insert clauses into specifications by manufacturer and product, making the process quicker and more efficient. We are members of NBS Plus and therefore detailed up-to-date product information is readily available to create accurate specifications.

Disclaimer

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika’s current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika’s recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product’s suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
