

SIKA AT WORK

NEW BUILD PROJECT

EMBANKMENT EXCHANGE

BUILDING FINISHING: Historic KL Mortar

COLOUR: Stone Grey

NEW BUILD PROJECT

EMBANKMENT EXCHANGE

PROJECT DESCRIPTION

Embankment Exchange, a new £85 million residential complex by Legacie has a wide range of communal facilities and was completed with Wienerberger Corium brick cladding. The brick cladding system was installed by Precision Facades and the pointing was completed by Sheffield Steel Pointing, using Sika Parex® Historic Mortar KL in a stone grey colour.

Designed for gun-injection for a quick and accurate application, the Sika range of pointing mortars include solutions for sound brickwork and masonry, and brick tiles in historic building applications. Choose from our wide range of mortar colours for a consistent colour and finish to brick cladding projects.
