

PRODUCT DATA SHEET

SikaCeram® Tanking Tape

A self-adhesive joint & corner sealing butyl backed fleece tape

PRODUCT DESCRIPTION

SikaCeram® Tanking Tape is a self-adhesive joint & corner sealing butyl backed fleece tape that should be applied to all corner joints, board joints and pipe penetrations to provide a water tight seal that accommodates cross directional movement. For use with SikaCeram® Waterproof Primer and SikaCeram® Waterproofing Membrane as part of the Wet Room Kit.

USES

For sealing joints before applying a waterproofing membrane in shower and wet room areas.

PRODUCT INFORMATION

Packaging	Box containing 1 x 10 m roll
Shelf Life	24 months when stored according to manufacturer's instructions.
Storage Conditions	Store in cool dry conditions

VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very

CHARACTERISTICS / ADVANTAGES

- Provides a water tight seal.
- Available as part of the SikaCeram® Waterproof Wet Room Kit.

high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

APPLICATION INSTRUCTIONS

SUBSTRATE QUALITY / PRE-TREATMENT

All surfaces must be clean, firm and free of dust, dirt, oil and loose flaking coatings.

Use a primer such as SikaCeram® Waterproofing Primer in the SikaCeram® Waterproof Wet Room Kit prior to use.

APPLICATION METHOD / TOOLS

- Ensure SikaCeram® Tanking Primer has been applied prior to tape application.

- Apply the tape to all corner joints, board joints and pipe penetrations to provide a water tight seal that accommodates cross directional movement.
- A 10 metre roll which is usually sufficient to waterproof the corners in a 7.5 square metre application.
- The tape can be over coated with SikaCeram® Waterproof Tanking Membrane immediately after application.
- On internal corners ensure the tape overlaps on both sides to avoid a weak spot in the centre of the internal corner.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
