SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : Sikafloor[®] TC 442 W Part B

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : Special system

1.3 Details of the supplier of the safety data sheet

Company name of supplier	:	Sika Limited Watchmead Welwyn Garden City Hertfordshire. AL7 1BQ
Telephone	:	+44 (0)1707 394444
Telefax	:	+44 (0)1707 329129
E-mail address of person responsible for the SDS	:	EHS@uk.sika.com

1.4 Emergency telephone number

National Chemical Emergency Centre (NCEC) 24 Hour Emergency Telephone Number +44 870 190 6777

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)						
Acute toxicity, Category 4	H332: Harmful if inhaled.					
Serious eye damage, Category 1	H318: Causes serious eye damage.					
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.					
Specific target organ toxicity - single ex- posure, Category 3, Respiratory system	H335: May cause respiratory irritation.					

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms

Signal word

Danger

1

Date of last issue: - Revision Date: 07.07.2025		Version 1.0	Print Date 07.07.2025
Hazard statements :	H318 H332	May cause an allergic skin reaction. Causes serious eye damage. Harmful if inhaled. May cause respiratory irritation.	
Precautionary statements :	Prevention: P261 P280	Avoid breathing mist or vapours Wear protective gloves/ eye pro protection.	
	Response:		
	P304 + P340	+ P312 IF INHALED: Remove pe air and keep comfortable for bro POISON CENTER/ doctor if yo	eathing. Call a
	P305 + P351	+ P338 + P310 IF IN EYES: Rins with water for several minutes. tact lenses, if present and easy tinue rinsing. Immediately call a CENTER/ doctor.	Remove con- to do. Con-
	P333 + P313	If skin irritation or rash occurs: (advice/ attention.	Get medical
	P362 + P364		and wash it

Hazardous components which must be listed on the label:

Hexamethylene-1,6-diisocyanate Homopolymer γ-butyrolactone hexamethylene-di-isocyanate

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	:	Move out of dangerous area. Consult a physician. Show this safety data sheet to the doctor in attendance.
If inhaled	:	Move to fresh air. Consult a physician after significant exposure.
In case of skin contact	:	Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. If symptoms persist, call a physician.
In case of eye contact	:	Small amounts splashed into eyes can cause irreversible tis- sue damage and blindness. In the case of contact with eyes, rinse immediately with plenty

ate of last issue: - evision Date: 07.07.2025	Version 1.0	Print Date 07.07.202
	of water and seek medical advice. Continue rinsing eyes during transp Remove contact lenses. Keep eye wide open while rinsing.	port to hospital.
If swallowed	: Do not induce vomiting without mere Rinse mouth with water. Do not give milk or alcoholic bevera Never give anything by mouth to an	ages.

SECTION 6: Accidental release	measures	
6.1 Personal precautions, protectiv	ve equipment and emergency procedures	
Personal precautions :	Use personal protective equipment. Deny access to unprotected persons.	
6.2 Environmental precautions		
Environmental precautions :	Do not flush into surface water or sanitary If the product contaminates rivers and lake respective authorities.	-
6.3 Methods and material for conta	ainment and cleaning up	
Methods for cleaning up :	Soak up with inert absorbent material (e.g acid binder, universal binder, sawdust). Keep in suitable, closed containers for dis	

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	:	 Avoid exceeding the given occupational exposure limits (see section 8). Do not get in eyes, on skin, or on clothing. For personal protection see section 8. Persons with a history of skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. Follow standard hygiene measures when handling chemical products
Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Hygiene measures	:	Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

Date of last issue: - Revision Date: 07.07.2025		Version 1.0	Print Date 07.07.2025
7.2 Conditions for safe storage	, inc	luding any incompatibilities	
Requirements for storage areas and containers	:	Keep container tightly closed in a dry an place. Containers which are opened mu sealed and kept upright to prevent leaka ance with local regulations.	st be carefully re-
Further information on stor- age stability	:	No decomposition if stored and applied	as directed.
7.3 Specific end use(s)			
Specific use(s)	:	Consult most current local Product Data use.	Sheet prior to any

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form	Control parame-	Basis *		
Hexamethylene-1,6-diisocyanate Homo-	28182-81-2	of exposure) TWA	ters * 0,01 mg/m3	98/24/EC I		
polymer			(NCO)			
	Further information: Skin, Dermal and respiratory sensitisation,					
	Binding					
		STEL	0,02 mg/m3 (NCO)	98/24/EC I		
		TWA	0,02 mg/m3 (NCO)	GB EH40

		STEL	0,07 mg/m3 (NCO)	GB EH40		
hexamethylene-di-isocyanate	822-06-0	TWA	0,02 mg/m3 (NCO)	GB EH40		
	Further information: Substances that can cause occupational					
	asthma (also known as asthmagens and respiratory sensitisers)					
	can induce a state of specific airway hyper-responsiveness via an					
	immunological irritant or other mechanism. Once the airways have					
	become hyper-responsive, further exposure to the substance,					
	sometimes even in tiny quantities, may cause respiratory symp-					
	toms. These symptoms can range in severity from a runny nose to					
	asthma. Not all workers who are exposed to a sensitiser will be-					
	come hyper-responsive and it is impossible to identify in advance					
	those who are likely to become hyper-responsive. Substances that can cause occupational asthma should be distinguished from					
	substances which may trigger the symptoms of asthma in people					
	with pre-existing airway hyper-responsiveness, but which do not					
	include the disease themselves. The latter substances are not					
	classified as asthmagens or respiratory sensitisers. Further infor-

hexamethylene-di-isocyanate	822-06-0	isocyanate- derived diamine (Isocyanates): 1 µmol/mol creati- nine (Urine)	At the end of the period of expo- sure	GB EH40 BAT

8.2 Exposure controls

Engineering measures

Maintain air concentrations below occupational exposure standards. Ensure adequate ventilation, especially in confined areas.

Personal protective equipme	ent
Eye/face protection	: Safety glasses with side-shields conforming to EN166 Eye wash bottle with pure water
Hand protection	 Chemical-resistant, impervious gloves complying with an approved standard must be worn at all times when handling chemical products. Reference number EN 374. Follow manufacturer specifications. Suitable for short time use or protection against splashes: Butyl rubber/nitrile rubber gloves (> 0,1 mm) Contaminated gloves should be removed. Suitable for permanent exposure:

Date of last issue: - Revision Date: 07.07.2025	Version 1.0	Print Date 07.07.2025
	Viton gloves (0.4 mm), breakthrough time >30 min.	
Skin and body protection	: Protective clothing (e.g. Safety shoes ac long-sleeved working clothing, long trous and protective boots are additionaly reco and stirring work.	sers). Rubber aprons
Respiratory protection	 In case of inadequate ventilation wear representation selection must be based on k exposure levels, the hazards of the proding limits of the selected respirator. organic vapor filter (Type A) A1: < 1000 ppm; A2: < 5000 ppm; A3: < Ensure adequate ventilation. This can be exhaust extraction or by general ventilation ods for determining inhalation exposure) ticular to the mixing / stirring area. In case to keep the concentrations under the occolimits then respiration protection measure. Ensure adequate ventilation, especially in the selected respirator. 	10000 ppm e achieved by local ion. (EN 689 - Meth- b. This applies in par- se this is not sufficent cupational exposure es must be used.
Environmental exposure co	ntrols	

General advice	: Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform
	respective authorities.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance Colour	:	viscous transparent
Odour	:	aliphatic
Melting point/ range / Freez- ing point	:	No data available
Boiling point/boiling range	:	No data available
Flammability (solid, gas)	:	No data available

Upper/lower flammability or explosive limits

Date of last issue: - Revision Date: 07.07.2025		Version 1.0	Print Date 07.07.2025
Upper explosion limit / Upper flammability limit	:	No data available	
Lower explosion limit / Lower flammability limit	:	No data available	
Flash point	:	Not applicable	
Auto-ignition temperature	:	No data available	
Decomposition temperature	:	No data available	
рН	:	Not applicable substance/mixture is non-soluble (in water)	
Viscosity			
Viscosity, dynamic	:	ca. 1.000 mPa.s (20 °C)	
Viscosity, kinematic	:	No data available	
Solubility(ies)			
Water solubility	:	No data available	
Partition coefficient: n- octanol/water	:	No data available	
Vapour pressure	:	0,01 hPa	
Density	:	ca. 1,13 g/cm3 (20 °C)	
Relative vapour density	:	No data available	
Particle characteristics	:	No data available

Revision Date: 07.07.2025		

11.2 Information on other hazards

Endocrine disrupting properties

Not classified due to lack of data.

Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 12: Ecological information

12.1 Toxicity

Components:

Hexamethylene-1,6-diisocyanate Homopolymer:

Toxicity to daphnia and other	:	EC50 (Daphnia (water flea)): > 100 mg/l
aquatic invertebrates		Exposure time: 48 h

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential

No data available

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment

: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher..

12.6 Endocrine disrupting properties

Product:

Assessment	: The substance/mixture does not contain components consid-
	ered to have endocrine disrupting properties according to
	REACH Article 57(f) or Commission Delegated regulation
	(EU) 2017/2100 or Commission Regulation (EU) 2018/605 at
	levels of 0.1% or higher.

Date of last issue: -	Version 1.0	Print Date 07.07.2025
Revision Date: 07.07.2025		

12.7 Other adverse effects

Product:

Additional ecological infor- : There is no data available for this product. mation

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

The generation of waste should be avoided or minimized wherever possible.
Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way.
Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.
Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

14.1 UN number or ID number

ADR	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
ΙΑΤΑ	:	Not regulated as a dangerous good
14.2 UN proper shipping name		
ADR	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
ΙΑΤΑ	:	Not regulated as a dangerous good
14.3 Transport hazard class(es)		
ADR	:	Not regulated as a dangerous good
IMDG	:	Not regulated as a dangerous good
ΙΑΤΑ	:	Not regulated as a dangerous good
14.4 Packing group		
ADR	:	Not regulated as a dangerous good

Date of last issue: - Revision Date: 07.07.2025	Version 1.0	Print Date 07.07.2025	
IMDG	: Not regulated as a dangerous good		
IATA (Cargo)	: Not regulated as a dangerous good		
IATA (Passenger)	: Not regulated as a dangerous good		
14.5 Environmental hazards Not regulated as a dangerous good			
14.6 Special precautions for user Not applicable			
14.7 Maritime transport in bulk according to IMO instruments Not applicable for product as supplied.			

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Relevant EU provisions transposed through retained EU law

UK REACH List of restrictions (Annex 17)	: Not applicable
UK REACH Candidate list of substances of very high concern (SVHC) for Authorisation	: Not applicable
The Persistent Organic Pollutants Regulations (retained Regulation (EU) 2019/1021 as amended for Great Britain)	: Not applicable
International Chemical Weapons Convention (CWC) Schedules of Toxic Chemicals and Precursors	: Not applicable
Regulation (EU) No 2024/590 on substances that deplete the ozone layer	: Not applicable
UK REACH List of substances subject to authorisation (Annex XIV)	: Not applicable
GB Export and import of hazardous chemicals - Prior Informed Consent (PIC) Regulation	: Not applicable
Control of Major Accident Hazards Regulations 2015 (COMAH)	Not applicable
	ax for volatile organic compounds
