Premium 145 Butyl Rubber Sealant

SGAN	SIZE	COLOUR	QTY	BARCODE
489633	300ML	GREY	12	5029347610357

A semi-setting jointing compound. Typically used for roofing, glazing, metal containers and sectional building applications. It forms a skin in approximately 24 hours but remains permanently plastic underneath. The sealant accommodates joint movements of +/- 5% and is overpaintable. Provides an effective weatherproof seal in a variety of exterior and interior applications.

SikaCeram® FlowFix Porcelain Paving System

SikaCeram® FlowFix is a high performance porcelain paving installation system, consisting of a bonding primer and jointing compound.

SikaCeram® FlowFix Bonding Primer is used to provide an exceptional bond between porcelain paving and the bedding mortar. Mixed solely with water, SikaCeram® FlowFix Bonding Primer is applied with a brush or roller to the rear of the paving when laying, to prevent the paving system breaking away from the mortar bed.

SikaCeram® FlowFix Jointing Compound is a controlled, cementitious flowable jointing grout which is applied by mixing with water on site. SikaCeram® FlowFix Jointing Compound is poured over joints with ease and worked into other exposed joints by squeegee. Once dry, the surplus is simply washed off. SikaCeram® FlowFix Jointing Compound is a highly workable product that is non-permeable once cured.

Evercryn One Coat
Roof Repair Compound

CAN BE USED IN THE WET

NO PRIMER NEEDED

ONE COAT APPLICATION

APPLY WITH A BRUSH

Evercryn is a resin based, fibre re-enforced* roof repair compound which is effective on all common roofing surfaces, giving instant roof repairs even in the wet and on wet surfaces. May also be applied in frosty conditions down to -5°C.

Evercryn is instantly waterproof when applied, there is no fear of wash off so emergency leaks can be tackled immediately as there is no need to wait for the rain to stop. Evercryn is brush applied and dries to a smooth seamless flexible membrane which resists algae and fungal growth. Because of the high level of fibre reinforcement, Evercryn will bridge small cracks and requires only a one coat brush application to give instant and total water protection, even in areas subject to ponding. Evercryn requires no primer on sound non-porous surfaces. Specifically designed for the following applications: general sealing, maintenance, repair and waterproofing of most common roofs in wet or dry conditions – for use on concrete, fibre/cement, roofing felt, mastic asphalt, existing bituminous roof coatings, rigid PVCu, corrugated iron, metals, slates, brickwork, tiles, lead, copper and zinc.

Evercryn Emergency Roof Repair is an emergency repair aid for use on external roofing applications. The formula has a gel consistency to allow it to be cartridge applied while still containing the top quality fibres that you expect with Evercryn. The product is applied through a special 'duck bill' shaped nozzle ideal for emergency repairs to gaps, cracks and holes in roofs, gutters, flashing, upstands and felt. It even works in wet conditions so there is no need to wait for the rain to stop.

An easy to use, all weather roofing system ideal for waterproofing flat or pitched roofs.

Liquid Roof is a one-component, fast curing, polyurethane based waterproofing system for flat and pitched roofs.

Applied in two coats by brush or roller, Liquid Roof creates a solid, seamless, waterproof membrane that remains permanently flexible, making it the ideal solution for new installations, the refurbishment of old or to overlay most common roofing substrates.

Liquid Roof comes ready to use and is cold applied by brush or roller, using moisture in the air to cure meaning no additional catalyst is required. And what's more, it will cure in many weather conditions becoming completely rain resistant in just 10 minutes, even if a pool of water forms on top of it.

Suitable for use on a variety of substrates, Liquid Roof is compatible with concrete, mortar, stone, fibre cement, roof tiles and metals. Not only that but it can also be applied to wood, asphalt, roofing felt and bituminous coatings with the use of full reinforcement in the form of Sikalastic Fleece-120.

MOISTURE CURING TECHNOLOGY - NO CATALYST REQUIRED

FOR NEW ROOFS AND REFURBISHING OLD ROOFS

STEP ONE

Ensure all surfaces are sound, clean and free from dust and loose friable material.

STEP TWO

Apply the first coat of Everbuild Liquid Roof liberally at a thickness of 1mm, by brush or solvent-resistant roller.

STEP THREE

If required, apply Sikalastic Fleece-120 on top of the first coat whilst still wet, overlapping the edges.

STEP FOUR

Apply a second coat at a similar thickness to the first, immediately after laying the fleece.

For full application instructions, please refer to latest Product Data Sheet or contact the Sika Technical Team.

SGAN	SIZE	COLOUR	QTY	BARCODE
488531	40GRM	-	25	NO BARCODE

Spare catalyst/hardener tubes for use with all 2 part wood fillers.

Wet Rot Wood Hardener

SGAN	SIZE	COLOUR	QTY	BARCODE
488537	250ML	-	6	5029347807016

Wet Rot Wood Hardener is a highly penetrative solution of selected resins in solvent which soaks deep into the fibres of decaying wood and dries to leave the wood hard and resistant to further moisture penetration. The resin modified wood then becomes an ideal base for repair with Everbuild 2 part wood fillers.

P24 Power Cleaner

SGAN	SIZE	COLOUR	QTY	BARCODE
688226	500ML	-	12	5055492703774

P24 Power Cleaner is a high-strength, universal, rapid liquid cleaner for all central heating systems. It is designed to remove all debris, sludge, flux and scale from existing systems – its high-strength formulation makes it ideal for use for both new and older systems with heavier build-up.

P28 Filter Fluid

SGAN	SIZE	COLOUR	QTY	BARCODE
687374	500ML	-	12	5055492703798

P28 Filter Fluid has been specifically developed to penetrate, release and lift magnetite deposits and contaminants. Debris is delivered directly to the in-line filter for fast and safe removal. Magnetite particles are over five times heavier than water and tend to settle in less turbulent areas of the system and cannot be captured by the filter.

P32 Leak Sealer

SGAN	SIZE	COLOUR	QTY	BARCODE
687371	500ML	-	12	5055492703804

P32 Leak Sealer is a rapid, internal leak sealer that is designed for central heating systems suffering from small, inaccessible leaks and weeps which may cause pressure loss. Once added to the system, the product locates the area of water loss and forms a soft barrier to seal the hole. P32 Leak Sealer is effective within 1 to 24 hours and has been tested and proven to prevent blockages or restrictions in system components.

P26 Biocide

SGAN	SIZE	COLOUR	QTY	BARCODE
686663	500ML	-	12	5055492703781

P26 Biocide is a high-strength, rapid attacking biocide designed for use with all central heating and underfloor heating systems. This product contains three active biocidal ingredients that rapidly acts to eliminate and prevent further formation of fungal growth and bacteria in heating systems.

P30 Protector

SGAN	SIZE	COLOUR	QTY	BARCODE
687372	500ML	-	12	5055492703811

P30 Protector is a high performance, long lasting, easy to use inhibitor that protects domestic heating systems against internal corrosion, limescale and hydrogen gassing. This product has enhanced pH buffering capabilities to ensure the system water pH level does not drop below 8.0 or exceed 8.5 – the optimum pH range for preventing limescale and corrosion build-up.

P12 Silicone Grease is a lubricant and sealant with excellent resistance to most chemicals, extreme temperatures and exceptional water resistance. It has low vapour tension up to 200 °C, enabling low residual pressure to be achieved. P12 Silicone Grease is also chemically inert – it is non-corrosive on metals and has no plasticising effect on rubbers or plastics.

P13 Putty

SGAN	SIZE	COLOUR	QTY	BARCODE
488411	750GR	BEIGE	12	5029347600655

Plumber's Putty is a ready-mixed, waterproof, non-setting putty designed for sealing and bedding WC soil pipes, joints in sanitary wear, sinks and waste water fittings. Plumber's Putty will seal ceramics, vitreous enamels, metals and PVC. Remains permanently flexible to allow for joint movement.

P16 PVC Pipe Cement

SGAN	SIZE	COLOUR	QTY	BARCODE
488408	250ML	-	12	5029347607029

PVC Pipe Cement is a non-drip, thixotropic solvent based pipe cement for bonding non-pressure PVC and ABS thermoplastic pipes and conduits to themselves and each other.

Conforms to BSEN14814 and BSEN14680.

PVC/PVCu/ABS

P18 Gas Leak Detector

SGAN	SIZE	COLOUR	QTY	BARCODE
486898	400ML	-	12	5010618216101

Gas Leak Detector is a specially formulated foam designed specifically to identify even the smallest positive pressure, gaseous leak. It is suitable for use with most common gases and is compatible with paintwork, metals, wood and most plastics.

Heat Resistant Matt Black Paint Tin

SGAN	SIZE	COLOUR	QTY	BARCODE
486783	125ML	BLACK	12	5029347609306

Heat Resistant Paint is a protective and decorative paint which is heat stable for temperatures up to 600°C. It is suitable for use on domestic stoves, furnace chimneys, industrial ovens and exhausts. It can be used as a single coat, or two coats on bare ferrous metal surfaces.

Heat Resistant Matt Black Paint Aerosol

Febtank Super, when mixed with clean water, forms an extremely durable waterproof coating for concrete and masonry which is easily applied by a stiff hand brush, broom or spray. Ideal permanent waterproofing system for basements, cellars, pools, reservoirs and below ground level applications. Resists both negative and positive water pressure. **BBA approved. Tested to BSEN 1504-3.**

Febtank Plug

SGAN	SIZE	COLOUR	QTY	BARCODE
486603	5KG	GREY	1	5029347607814

Febtank Plug is an ultra-rapid setting, durable plugging compound designed to stop active water leaks in concrete and masonry.

Once applied, the material expands as it cures to form a permanent watertight seal with similar characteristics to concrete. Suitable for use with Febtank Super.

THE WATERTIGHT
SOLUTION ENGINEERED
FOR BASEMENTS

Our ground-breaking **Sika® Watertight Concrete System** is specifically designed for water resistance underground. Made in Britain by the original innovators of watertight concrete to keep water in its place. Available now in powdered (hydrophobic or crystalline) and bulk liquid (hydrophobic).

- Keeps water out – and in for swimming pools
- Industry leading design and technical support for complex projects
- Includes complementary jointing products for a complete watertight seal
- Incorporates the latest concrete admixture technology
- No.1 in the UK – all formulas are BBA certified, backed with 15-year Sika® Guarantee

Why Chemical Anchors?

Chemical Anchors, also often referred to as 'Resin Bonded' anchors, are being increasingly used where a critical or heavy weight loading needs fastening.

Unlike intrusive mechanical expansion anchors or plastic plugs, chemical anchors make the fixing an integral part of the substrate as the load is spread throughout the entire fixing area, removing the stress caused within the substrate when mechanical anchors or plastic plugs are "tightened" up.

This key difference is particularly relevant on lightweight substrates, and poor and friable substrates, cracked concrete, sandstone and masonry as well for fixings close to the edge.

How are they used?

The hole is drilled to the required diameter dependent upon the threaded bar to be used, and the loading it has to take. Full tables of relevant hole diameter sizes and loading strengths can usually be found on all packs and technical data, but for example for an M8 fixing a 10mm diameter hole would normally be used in concrete.

Where are they used?

In addition to the more critical structural applications Chemical Anchors also provide a more robust fixing solution in many day to day building applications such as:

- Satellite Dishes • Railings • Heavy Pipes
- Gates • Sanitary Fixings • Wall Ties • Fire Surrounds • Lamps • Steel Structures
- Kitchen Wall Cupboards • Towel Holders

TERMS AND CONDITIONS

Standard terms and conditions of sale for goods sold by Sika Limited.

1. INTERPRETATION

In these Terms and Conditions the following expressions will have the following meanings unless inconsistent with the context:

“Bespoke Goods”

means any Goods which are made to measure, bespoke, or otherwise manufactured to a unique specification.

“Brexit”

means the United Kingdom ceasing to be a member state of the European Union.

“Buyer”

the person(s), firm or company whose order for the Goods or Services is accepted by the Company in accordance with these Terms and Conditions.

“Company”

Sika Limited (Company number:226822) whose registered office is located at Watchmead, Welwyn Garden City, Herts, AL71BQ.

“Confidential Information”

means all information in respect of the business of the Company including, but not limited to, know-how, prices or other matters connected with the Goods

or Services (which shall include any instructions or procedures, instruction manuals, user guides and other information which is supplied by the Company with the Goods or Services) and any other information of whatever nature which, if disclosed, will be liable to cause harm to the Company.

“Contract”

any contract between the Company and the Buyer for the sale and purchase of the Goods or Services formed in accordance with Condition 2.

“Delivery Point”

the place where delivery of the Goods is agreed to take place, as set out in the Company’s written acknowledgement of order.

“Final Inspection Certificate”

A Certificate issued for the benefit of a third party at the completion of the Services.

“Goods”

any goods which the Company supplies to the Buyer (including any of them or any part of them) under a Contract.

“Guarantee”

a guarantee or Final Inspection Certificate for or related to the Goods in a form to be provided by the Company in favour of a third party nominated by the Buyer.

“Guarantee Period”

the on-going period of protection provided to a third party as set out in a Guarantee.

“Intellectual Property Rights”

all intellectual and industrial property rights including patents, know-how, registered trade marks, registered designs, utility models, applications for any rights to apply for any of the foregoing, unregistered design rights, unregistered trade marks, rights to prevent passing off for unfair competition and copyright, database rights, topography rights and any other rights in any invention, discovery or process, in each case in the United Kingdom and all other countries

in the world and together with all renewals and extensions

“Services”

any services which the Company performs for the Buyer under a Contract, which are ancillary to the supply of Goods.

“Service Point”

the place at which the Services are to be performed, as set out in the Company’s written acknowledgement of order.

“Specific Delivery Requirement”

any goods, which are required to be delivered by a type of vehicle specified by the Buyer.

“Terms and Conditions”

the standard terms and conditions of sale set out in this document together with any special terms agreed in writing between the Buyer and the Company.

“Trademark”

the SARNAFIL trademark registered in the United Kingdom under trademark number 1046240.

“Working Day”

any day other than Saturday or Sunday or a public or bank holiday in England.

2. FORMATION AND INCORPORATION

2.1 Subject to any variation under Condition 14.5, the Contract will be upon these Terms and Conditions, to the exclusion of all other terms and conditions and all previous oral or written representations including any terms or conditions which the Buyer purports to apply under any purchase order, confirmation of order or similar document, whether or not such document is referred to in the Contract.

2.2 Each order or acceptance of a quotation for Goods or Services will be deemed to be an offer by the Buyer to purchase Goods or Services upon these Terms and Conditions. The Contract is formed when the Buyer receives confirmation that the order is accepted by the Company. Such confirmation may either be given orally or in writing. No contract will come into existence until such confirmation has been given by the Company.

2.3 The Buyer must ensure that the terms of its order and any

applicable specification are complete and accurate.

2.4 Acceptance of delivery of the Goods or commencement of the performance of the Services will be deemed conclusive evidence of the Buyer’s acceptance of these Terms and Conditions.

2.5 Subject to Condition 5, the Buyer may not cancel the Contract. The Company may cancel the Contract at any time prior to delivery of the Goods or commencement of the performance of the Services.

3. DESCRIPTION OF THE GOODS AND SERVICES

3.1 The description of the Goods will be as set out in the Company’s price list. All samples, drawings, descriptive matter, specifications and advertising issued by the Company and any descriptions or illustrations contained in the Company’s catalogues or brochures are issued or published for the sole purpose of giving an approximate idea of the Goods represented by or described in them. They will not form part of the Contract and this is not a sale by sample.

3.2 The Company may make any change to the specification, design, materials or finishes of the Goods which are:

3.2.1 required to conform with any applicable safety, statutory or regulatory requirement; or

3.2.2 do not materially affect their quality

3.3 The Company will only perform Services which are ancillary to, or relating to, Goods provided under a contract.

3.4 The Services will only be performed by the Company at the Service Point.

3.5 The Company shall use all reasonable endeavours to perform the Services:

3.5.1 to the standard required for the issue of a Final Inspection Certificate;

3.5.2 promptly, but time shall not be the essence for the performance of the services

3.6 The Company shall have the right to make any changes to the Services which are necessary to comply with applicable safety, statutory or regulatory requirements, or which do not materially affect the nature or quality of the Services, and the Company shall notify the Buyer in any such event.

4. PRICE AND PAYMENT

4.1 The price for the Goods or Services will be the price set out in the Company’s published price list current at the date of delivery of Goods or performance of Services or as otherwise notified by the Company to the Buyer prior to the Contract being made. Orders for Goods valued below £2000 (before VAT) are exclusive of any costs of packaging and carriage, VAT and any other applicable sales tax or duty which will be added to the sum in question. Orders for Goods valued greater than £2000 (before VAT) and which are to be dispatched from the Company’s warehouse within the United Kingdom are inclusive of any costs of packaging and carriage within the United Kingdom but exclusive of VAT and any other applicable sales tax or duty will be added to the sum in question.

4.2 The Company may invoice the Buyer for the Goods on or at any time after dispatch, or for the Services on or at any time after performance commences and payment is due in pounds sterling by the last day of the next calendar month following the date of invoice, or upon termination of the Contract, whichever occurs first

4.3 Time for payment will be of the essence. No payment will be deemed to have been received until the Company has received cleared funds.

4.4 All payments to be made by the Buyer under the Contract will be made in full without any set-off, restriction or condition and without any deduction for or on account of any counterclaim

4.5 If any sum payable under the Contract is not paid when due then, without prejudice to the Company’s other rights under the Contract, that sum will bear interest from the due date until payment is made in full, both before and after any judgment, at a combined rate of the Bank of England base rate from time to time and the rate provided by the Late Payment of Commercial Debts (Interest) Act 1998 as amended from time to time; and the Company will be entitled to suspend deliveries of the Goods or performance of the Services until the outstanding amount has been received.

4.6 The Company reserves the right to recoup any sum, resulting from costs incurred from legal proceedings to recover the sum payable under the contract.

4.7 Any invoice queries must be communicated to the Company within ten (10) Working Days of receipt of the invoice by the Buyer

5. INSTALLMENTS

5.1 The Company may deliver the Goods, or perform Services, by separate instalments. Each instalment will be a separate Contract and no cancellation or termination of any one Contract relating to an instalment will entitle the Buyer to repudiate or cancel any other Contract or instalment unless otherwise notified by the Company. Each separate instalment will be invoiced and paid for in accordance with the provisions of the Contract.

6. DELIVERY OF GOODS

6.1 Delivery of the Goods within the UK mainland will be CPT Delivery Point INCOTERMS 2010 (save that carriage may be charged to the Buyer in accordance with Condition 6.4 and/or Condition 6.5).

6.2 Delivery of the Goods to Northern Ireland, the Scottish Isles, the Channel Islands or the Isle of Man will be made FOB Delivery Point INCOTERMS 2010.

6.3 Delivery of the Goods outside the UK will be made FAS Delivery Point INCOTERMS 2010, except that risk shall pass to the Buyer at the time that the Goods leave the Company’s premises.

6.4 Delivery of the Goods will be accepted at any time of day.

At the sole discretion of the Company, overnight deliveries or deliveries at specified times may be agreed in certain circumstances. Notwithstanding condition 6.1, such deliveries shall be subject to an additional charge being raised by the Company. If the Buyer fails to take delivery, or provide any necessary documents, the Goods will be deemed to have been delivered and the Company, without prejudice to its other rights, may at its option:

6.4.1 store or arrange for storage of the Goods until actual delivery or sale and charge the Buyer for all related costs and expenses (including, without limitation, storage and insurance); and/or

6.4.2 following written notice to the Buyer, sell any of the Goods at the best price reasonably obtainable in the circumstances and charge the Buyer for any shortfall below the price under the Contract.

Excessive waiting times may also be charged to the Buyer in certain circumstances.

6.5 The Company will use reasonable endeavours to deliver Goods five (5) Working Days after the date on which the order is confirmed by the Company, but the time of delivery will not be of the essence of a Contract. Notwithstanding condition 6.1, carriage will be charged on deliveries required within five (5) Working Days, or deliveries with specific time or vehicle type stipulations. If, despite those endeavours, the Company is unable for any reason to fulfil any delivery of Goods on a specified date, the Company will be deemed not to be in breach of the Contract, nor (for the avoidance of doubt) will the Company have any liability to the Buyer for direct, indirect or consequential loss (all three of which terms includes, without limitation, pure economic loss, loss of profits, loss of business, depletion of goodwill and like loss) howsoever caused (including as a result of negligence) by any delay or failure in delivery of Goods except as set out in this condition. Any delay in delivery of Goods will not entitle the Buyer to cancel the order unless and until the Buyer has given ten (10) Working Days’ written notice to the Company requiring the delivery of the Goods and the Company has not fulfilled the delivery of the Goods within that period. If the Buyer cancels the order in accordance with this Condition 6.5 then, save as excluded under Condition 6.6:

6.5.1 the Company will refund to the Buyer any sums which the Buyer has paid to the Company in respect of the Goods which have been cancelled;

6.5.2 and the Buyer will be under no liability to make any further payments under Condition 4 in respect of the Goods that have been

6.6 Notwithstanding, the provisions of Condition 5, the Company will be under no obligation to:

6.6.1 to refund the Buyer any sums which the Buyer has paid to the Company in respect of the Bespoke Goods which have been cancelled under Condition 5; and

6.6.2 waive any outstanding further payments due by the Buyer in respect of Bespoke Goods which have been cancelled under Condition 5.

6.7 The Buyer will provide at its expense at the Delivery Point adequate and appropriate equipment and manual labour for off-loading the goods.

6.8 A £10.00 handling charge will be made in addition to the carriage charge for overnight dispatch of Goods. This service is offered as resources allow and is subject to availability.

6.9 The type of vehicle used to deliver Goods and the method of packaging of the Goods for delivery will be at the discretion of the Company.

6.10 Any change required by the Buyer to the delivery vehicle and/or the method of packaging the Goods for delivery selected by the Company will constitute a Specific Delivery Requirement. The Buyer will incur any additional costs for a Specific Delivery Requirement

6.11 The Buyer will provide a full and correct address, including postcode, for the delivery of the company.

7. RISK/TITLE IN THE GOODS

7.1 Risk of damage to or loss of the Goods will pass to the Buyer in accordance with Condition 6.

7.2 Ownership of the Goods will not pass to the Buyer until the Company has received in full (in cash or cleared funds) all sums due to it in respect of:

7.2.1 the Goods; and

7.2.2 all other sums which are, or which become due to the Company from the Buyer on any account, whether for Goods or Services

7.3 Until ownership of the Goods has passed to the Buyer, the Buyer must:

7.3.1 hold the Goods on a fiduciary basis as the Company’s bailee;

7.3.2 store the Goods (at no cost to the Company) separately from all other Goods of the Buyer or any third party in such a way that they remain readily identifiable as the Company’s property;

7.3.3 not destroy, deface or obscure any identifying mark or packaging on or relating to the Goods; and

7.3.4 maintain the Goods in satisfactory condition insured on the Company’s behalf for their full price against all risks to the reasonable satisfaction of the Company, and will whenever requested by the Company produce a copy of the policy of insurance.

7.4 The Buyer may resell the Goods before ownership has passed to it solely on the following conditions:

7.4.1 any sale will be effected in the ordinary course of the Buyer’s business at full market value and the Buyer will account to the Company accordingly; and

7.4.2 any such sale will be a sale of the Company’s property on the Buyer’s own behalf and the Buyer will deal as principal when making such a sale

7.5 The Buyer’s right to possession of the Goods will

terminate immediately if any of the circumstances set out in Condition 11.1 occur.

7.6 The Company will be entitled to recover payment for the Goods notwithstanding that title in any of the Goods has not passed from the Company.

7.7 The Buyer grants the Company, its agents and employees an irrevocable licence at any time to enter any premises where the Goods are or may be stored in order to inspect them, or, where the Buyer’s right to possession has terminated, to recover them.

7.8 Where the Company is unable to determine whether any Goods are the goods in respect of which the Buyer’s right to possession has terminated, the Buyer will be deemed to have sold all goods of the kind sold by the Company to the Buyer in the order in which they were invoiced to the Buyer.

7.9 On termination of the Contract, howsoever caused, the Company’s (but not the Buyer’s) rights contained in this Condition 7 will remain in effect.

8. LIABILITY OF COMPANY

8.1 The Company will, free of charge, within a period of twelve (12) months from the date of delivery of Goods, or where a Guarantee has been issued, for the Guarantee Period, which are proved to the reasonable satisfaction of the Company to be missing, damaged or defective due to defects in material or design (other than a design made, furnished or specified by the Buyer), repair, or at its option provide or replace, such Goods. This obligation will not apply where:

8.1.1 the Goods have been improperly altered in any way whatsoever, or have been subject to misuse or unauthorised repair;

8.1.2 the Goods have been improperly installed or connected;

8.1.3 any maintenance requirements relating to the Goods have not been complied with;

8.1.4 the Buyer has failed to notify the Company of any defect(s) or missing item(s) from the order acknowledgement within forty-eight (48) hours of delivery where the defect(s) or missing item(s) should be apparent on reasonable inspection, or within forty-eight (48) hours of the same coming to the knowledge of the Buyer where the defect(s) or missing item(s) is not that which should be apparent on reasonable inspection, and in any event no later than twelve (12) months from the date of delivery;

8.1.5 where a guarantee has been issued, and has been breached by the third party beneficiary of the Guarantee within the Guarantee Period

8.2 Any Goods which have been replaced by the Company will belong to the Company. Any repaired or replacement Goods will be liable to repair or replacement under the terms specified in Condition 8.1 for the unexpired portion of the twelve (12) month period from the original date of delivery of the replaced Goods or where a Guarantee has been issued, for the Guarantee Period

8.3 In the event of any breach of the Company’s express obligations under Conditions 5, 8.1 and 8.2 above the remedies of the Buyer will be limited to damages.

8.4 The Company does not exclude its liability (if any) to the Buyer

8.4.1 for breach of the Company’s obligations arising under section 12 Sale of Goods Act 1979 or section 2 Supply of Goods and Services Act 1982;

8.4.2 for personal injury or death resulting from the Company’s negligence;

8.4.3 under section 2(3) Consumer Protection Act 1987;

8.4.5 for any matter which it would be illegal for the Company to exclude (or to attempt to exclude) its liability; or

8.4.6 for fraud

8.5 Except as provided in Conditions 6.5 and 8.1 to 8.4, the Company’s liability to the Buyer (whether in contract, tort (including negligence), breach of statutory duty, restitution or otherwise) for any injury, death, damage or direct, indirect or consequential loss (all three of which terms include, without limitation, pure economic loss, loss of profits, loss of business, depletion of goodwill and like loss) howsoever caused arising out of or in connection with:

8.5.1 any of the Goods, or the manufacture or sale or supply, or failure or delay in supply, of the Goods by the Company or on the part of the Company’s employees, agents or sub-contractors;

8.5.2 any of the Services, or their performance, or failure or delay in performance, of the Services by the Company or on the part of the Company’s employees, agents or sub-contractors

8.5.3 any breach by the Company of any of the express or implied terms of the Contract;

8.5.4 any use made or resale by the Buyer of any of the Goods, or of any product incorporating any of the Goods;

8.5.5 any use made by the Buyer of any of the Services, or of any product incorporating any of the Services; or

8.5.6 any statement made or not made, or advice given or not given, by or on behalf of the Company or otherwise under the Contract, shall be limited to the invoiced value of the Goods

8.6 Except as set out in Conditions 6.5 and 8.1 to 8.5, the Company hereby excludes to the fullest extent permissible in law, all conditions, warranties and stipulations, express (other than those set out in the Contract) or implied, statutory, customary or otherwise which, but for such exclusion, would or might subsist in favour of the Buyer.

8.7 Each of the Company’s employees, agents and sub-contractors may rely upon and enforce the exclusions and restrictions of liability in Conditions 6.5 and 8.3 to 8.6 in that person’s own name and for that person’s own benefit, as if the words “its employees, agents and sub-contractors” followed the word “Company” wherever it appears in those conditions save each reference in Condition 8.5.1.

TERMS AND CONDITIONS

Standard terms and conditions of sale for goods sold by Sika Limited.

14. GENERAL

14.1 Time for performance of all obligations of the Buyer is of the essence. Time for performance of all obligations of the Company is not of the essence.

14.2 Each right or remedy of the Company under the Contract is without prejudice to any other right or remedy of the Company whether under the Contract or not.

14.3 If any condition or part of the Contract is found by any court, tribunal, administrative body or authority of competent jurisdiction to be illegal, invalid or unenforceable then that provision will, to the extent required, be severed from the Contract and will be ineffective, without, as far as is possible, modifying any other provision or part of the Contract and this will not affect any other provisions of the Contract which will remain in full force and effect.

14.4 No failure or delay by the Company to exercise any right, power or remedy will operate as a waiver of it, nor will any partial exercise preclude any further exercise of the same, or of any other right, power or remedy.

14.5 Save as set out in the Contract and Condition 8.1.5, these Terms and Conditions may only be varied or amended in writing and signed by a senior manager of the Company.

14.6 The Company may assign, delegate, license, hold on trust or sub-contract all or any part of its rights or obligations under the Contract.

14.7 The Contract is personal to the Buyer who may not assign, delegate, license, hold on trust or sub-contract all or any of its rights or obligations under the Contract without the Company’s prior written consent.

14.8 The Contract contains all the terms which the Company and the Buyer have agreed in relation to the Goods and/or Services and supersedes any prior written or oral agreements, representations or understandings between the parties relating to such Goods and/or Services. The Buyer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of the Company which is not set out in the Contract. Nothing in this Condition 14.8 will exclude any liability which one party would otherwise have to the other party in respect of any statements made fraudulently.

14.9 Save as set out in Condition 8.7 the parties to the Contract do not intend that any of its terms will be enforceable by virtue of the Contracts (Rights of Third Parties) Act 1999 by any person not a party to it.

14.10 Any notice in connection with the Contract will be in writing addressed to the other party at its registered office, or principal place of business and will be delivered by hand, or first class or special delivery post or the notice will be deemed to have been duly served if delivered by hand, when left at the proper address for notice or if made by pre-paid, first class post or special delivery post, forty-eight (48) hours after being posted or in the case of Airmail, fourteen (14) days after being posted.

14.11 The formation, existence, construction, performance, validity and all aspects whatsoever of the Contract or of any term of the Contract will be governed by English law. The English courts will have exclusive jurisdiction to settle any dispute which may arise out of, or in connection with the Contract. The parties agree to submit to that jurisdiction.

14.12 Where Part II of the Housing Grants, Construction and Regeneration Act 1996 applies, either party may refer any dispute or difference arising under this Agreement to adjudication. The adjudication procedures and the agreement for the appointment of an adjudicator shall be set out in the Model Adjudication Procedures published by the Construction Industry Council current at the date of reference. The nominating body shall be the Technology and Construction Solicitors’ Association or any successor organisation.

14.13 The Buyer will keep confidential any and all Confidential Information that it may acquire. The Buyer will not use the Confidential Information for any purpose other than to perform its obligations under the contract. The Buyer will ensure that its officers and employees comply with the provisions of this Condition 14.13. The obligations of the Buyer set out in this Condition will not apply to any information which is publicly available or becomes publicly available through no act or omission of the Buyer or if the Buyer is required to disclose by order of a court of competent jurisdiction.

14.14 Where a Brexit Trigger Event occurs (as defined below) and the Company gives notice to the Buyer of the same:

14.14.1 The Company shall not be liable to the Buyer for any failure or delay or for the consequences of any failure or delay in performance of the Contract where there is a Brexit Trigger Event (and the notice shall have effect from its date)

14.14.2 The Company may require the Buyer to negotiate in good faith an amendment to the Contract to alleviate the Brexit Trigger Event; and if no such amendment is made to the Contract within seven (7) days from notice given by the Company the Company may terminate the Contract by giving Buyer notice not less than twenty one (21) days written notice

14.15 For the avoidance of doubt the rights afforded by this clause 14.14 are without prejudice to the entitlement of the Company to exercise its rights pursuant to Condition 2.5, and the Company may cancel the Contract at any time prior to delivery of the Goods or commencement of the performance of the Services, for any reason

14.16 “Brexit Trigger Event” means any of the following events occurring at any time on or after Brexit

14.16.1 an adverse impact on the Company’s ability to perform the Contract in accordance with its terms and the law (and the Company shall determine its its absolute discretion whether such an adverse impact has occurred);

14.16.2 an increase in the costs incurred by the Company performing the Contract since the price for the Goods was last agreed.

XL Fire Cement 123

CE / UKCA – There are four main types of approval under the sealant CE / UKCA Mark:

- F** – Façade use which is split into two sub categories with FINT meaning internal use only and F EXT INT meaning the product can be used both internally and externally. F EXT INT is then split into various classifications:
 - P** – Plastic which means the product has limited elastic recovery and behaves more like a plastic bag.
 - E** – Elastic which means the product behaves more like an elastic band.
 - HM** – High Modulus.
 - LM** – Low Modulus.
- G** – Glazing use.
- S** – Sanitary use which is only approved for internal use and is split into two sub categories S and XS with the latter being the more stringently tested of the two. A number will always follow the S or XS with 1 showing the least biological growth and 3 showing the most, basically meaning S3 is the lowest classification and XS1 is the highest.
- PW** – Pedestrian Walkway use.

JARGON BUSTER

Fire Rating – The measure of a sealants ability to maintain its insulation and integrity in a joint when exposed to fire.

Hybrid Polymers / MS – This is the next generation technology combining a sealant and adhesive into one product which can be used on most porous and non-porous materials giving them an almost unlimited number of application possibilities. One major advantage these products have over other sealants is that they can be applied in the wet and even under water.

Neutral Cure – Products which cure by a system of crosslinkers that, when activated by exposure to moisture in the air release almost odourless by-products, mainly alcohols. Neutral cure sealants have very little effect on the substrate applied to i.e. non-corrosive.

Modulus – Sealants can be either high, mid or low modulus and refers to the elastic nature of the material.

Flexibility – The degree of movement a sealant can cope with when applied with a greater number meaning the sealant is more flexible.

Shore A Hardness – A number which denotes the surface hardness of a sealant once cured. The higher the number, the harder the surface.

Silicone – The most common form of sealant on the market, silicones come in a variety of grades for multiple application uses.

Polyurethanes – Combining the properties of a sealant, adhesive and filler into one product.

Oil Based Mastic – A traditional product mainly used in wooden window installations and pre-cast concrete panel sealing applications.

Treated Articles – Some products now state 'Please use treated articles responsibly' within the health and safety panel which refers to any item which contains a preservative to protect the product through its life cycle.
