

PRODUCT DATA SHEET

Sika® 404 Fungicidal Wash

Powerful, fast acting fungicidal wash

PRODUCT DESCRIPTION

Sika® 404 Fungicidal Wash is a powerful, fast acting solution which is effective on most surfaces. It quickly removes mould, fungus and lichen from floors, walls, drives and roofs. It also leaves a residual surface to help prevent further infestation.

USES

- Kills mould and fungal growth caused by damp on internal and external floors and walls.
- Kills mould and fungal growth on roofs prior to coating with bituminous coatings.
- Removes algae, lichen, green slime and fungal growth from patios, drives, glass, stone, ceramics, wood, concrete and many types of plastic.

CHARACTERISTICS / ADVANTAGES

- Active ingredients Alkyl (C12-16) Dimethylbenzyl ammonium Chloride (0.99%w/w) 2-Phenylphenol. (0.25% w/w).
- Leaves a residual surface to help prevent future infestation.
- Ready to use - do not dilute.
- For internal and external use.

APPROVALS / STANDARDS

Registered with HSE under 'Control of Pesticides Regulations;1986'.

PRODUCT INFORMATION

Packaging	5 L plastic containers.
Appearance / Colour	Clear solution.
Shelf Life	24 months from date of manufacture when stored in original, unopened container under the recommended storage conditions.
Storage Conditions	Store in cool dry conditions away from direct sunlight in original packaging between +5 °C and +40 °C. STORE AWAY FROM CHILDREN. Protect from frost. Storage outside these conditions will dramatically reduce shelf life.
Density	1.0 g/cm ³ at +20 °C.
Freezing point	0 °C approx.
Yield	1 L will cover approximately 5-10 m ² of surface depending on porosity of the surface, type and quantity of surface infestation.
Drying time	1-12 hours from washdown depending on surface.

VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LIMITATIONS

- Ready to use - do not dilute.
- For use only as specified as a surface biocide.
- Ensure container is always kept in a secure upright position during both storage and transit.
- Always test a small area before applying to the entire surface.
- Always wash the surface down after treatment to prevent contact with skin and subsequent surface coatings.
- Safe for children and pets once dry.
- It is the user's responsibility to determine suitability for use. If in doubt, please contact Technical Services Department for further advice.

Amateur

- This material and its container must be disposed of in a safe way.
- Do not contaminate foodstuffs, eating utensils or food contact surfaces.
- Keep away from treated surfaces until dry.
- Wash hands and exposed skin before meals and after use.
- Keep in a safe place.

Professional

- The COSHH (control of substances hazardous to health) regulations 2002 (as amended) apply to the use of this product at work.
- Avoid excessive contamination of coveralls.
- All amateur risk mitigation also apply.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

APPLICATION

Always read label before use and wear suitable protective equipment. Supplied ready to use. Do not dilute. Remove all surface debris and growth from the area to be treated. Apply by brush or low pressure spray at a rate of 1 litre per 5 - 10 m² depending on porosity of surface. Leave solution for 20 minutes. Finally, scrub with cold water until the surface is clean. Repeat process for badly infested areas. Take care not to allow residues to run directly into fresh watercourses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
