

PRODUCT DATA SHEET

P24 Power Cleaner

A high strength, rapid central heating system cleaner

PRODUCT DESCRIPTION

Everbuild P24 Power Cleaner is a high strength, rapid liquid cleaner for all central heating systems. Its high-strength formulation makes it ideal for use for both new and older systems with heavier build-up. Everbuild P24 Power Cleaner is a neutral, non-hazardous product that is compatible with all metals and materials commonly used in central heating systems.

USES

Removes:

- Sludge & sludge deposits
- Debris & hardened debris
- Limescale
- Flux
- Rust
- Oil & grease

PRODUCT INFORMATION

Packaging	500 ml bottle
Shelf Life	36 months from the date of manufacture
Storage Conditions	Store in tightly closed original container and keep in a dry, cool and well ventilated place. Keep away from freezing. Store at temperatures above 5 °C

VALUE BASE

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LIMITATIONS

- For use in domestic systems only
- Not suitable for use in primatic single feed cylinders
- Do not leave this product in your system for longer

CHARACTERISTICS / ADVANTAGES

- High strength formulation
- Increases the heating efficiency and extends the life of boilers
- Suitable for all central heating systems
- Concentrated formula - treats 100 L/ up to 12 radiators per bottle

APPROVALS / STANDARDS

BS 7593:2019 Part L Compliant
Benchmark Approved

than 7 days

ECOLOGY, HEALTH AND SAFETY

APPLICATION INSTRUCTIONS

- Suitable for open-vented and sealed systems
- Can be added to the central heating system via the header tank, system filter, power-flush machine or dosing vessel
- Does not require neutralisation

- Circulate for a minimum of one hour
- We recommend circulating the product for 2-3 hours with heating on, depending on the amount of build up
- Flush out until the water runs clear
- The Total Dissolved Solids (TDS) reading for system water should be within 10 % of the 'mains' reading to indicate sufficient flushing has taken place
- After cleaning your central heating system, add Ever-build P30 Protector to efficiently protect the system
- It is safe to discard to foul sewer/septic tank - never discard to ground works

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
