

EFFECTIVE DESIGN OF SINGLE PLY ROOF SYSTEMS

SIKA-TROCAL - A PRODUCT YOU CAN RELY ON

Sika-Trocal was one of the very first single ply membranes on the market and has been successfully waterproofing roofs for over 40 years in the UK.

The NEW RIBA approved CPD presentation, 'Effective Design of Single Ply Roof Systems' aims to assist specifiers when designing and selecting Single Ply Roofing Solutions and covers the following topics:

- **Design Considerations** - Choosing a Single Ply system and designing to best practice
- **Quality Suppliers** - support and services from Single Ply Manufacturers
- **Guarantees** - Flexibility and options
- **Industry and Legislation** - Meeting standards
- **Sectors and Build types** - Considerations and methods
- **History and Group information** - On both Sika-Trocal and the Sika Group
