THE
PROFESSIONAL'S
CHOICE

Sikaflex®-268 PowerCure THE ACCELERATED ADHESIVE SYSTEM

- Fast adhesion, curing and strength build up
- Suitable for bonding and sealing
- Excellent weathering stability
- Very good processing and tooling characteristics

BUILDING TRUST

Sikaflex[®]-268 PowerCure

Sikaflex[®]-268 PowerCure is an accelerated polyurethane adhesive system suitable for glass and assembly bonding applications where fast curing is required. Sikaflex[®]-268 PowerCure has outstanding weathering resistance.

For specific applications consult the product data sheet or contact your Sika Technical Service.

PRODUCT BENEFITS

- Curing speed independent of climatic conditions
- PVC and solvent free

AREAS OF APPLICATION

- Assembly and direct glazing applications

PowerCure Applicator

Typical Product Data

Chemical base	1-C Polyurethane
Cure mechanism	Moisture curing ^A
Open time	30 minutes approx
Tensile strength (CQP036-1)	6 MPa approx
Elongation at break (CQP036-1)	500% approx
Shelf life (storage below 25°C) (CQP016-1)	9 months for pail

CQP = Corporate Quality Procedure ^AProvided by PowerCure

Our most current General Sales Conditions shall apply.

Please consult the most current local Product Data Sheet prior to any use..
