

## PRODUCT DATA SHEET

## Cromar® C1 Corner

C1 corner for GRP system

## PRODUCT DESCRIPTION

Cromar® C1 Corner is a pre-formed external fibre-glass corner designed specifically for use with A200 and B260 profiles, creating seamless left or right-hand corners.

The Cromar® C1 Corner trim is designed for builders and roofing professionals who need a reliable solution to join fascia and drip trims at 90 ° external corners. Made from high-quality glass reinforced plastic (GRP), this trim ensures a neat, weatherproof finish that integrates fully with Cromar® ProGRP and Flexiglass roofing systems.

When installed using the full system, this creates a seamless, extra tough flat roof that is completely water tight, providing the perfect finish.

## USES

- Facilitates roof void ventilation.
- Designed for use with A200 and B260 profiles, creating seamless left or right-hand corners.

## CHARACTERISTICS / ADVANTAGES

- Light in weight.
- Consistent weight and thickness.
- Excellent finish and appearance.
- High strength and flexibility.
- Fully bonds to the roof membrane creating a continuous, durable system, providing excellent long-term durability.
- Easy jointing.
- Easy to install.
- Unique high adhesion finish.
- U.V. stabilisation.

## ECOLOGY, HEALTH AND SAFETY

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

## APPLICATION INSTRUCTIONS

### APPLICATION

- The corner should be nailed to the deck at each end and in the middle.
- The joins between the trim and the corner should be sealed with a thin line of trim adhesive; a moist finger can be used to wipe the adhesive, ensuring it seals the entire joint.
- For a flawless finish, bandage the joint using tissue for a smooth, professional look.

## LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

## LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
