# MINERAL RENDERS

Parex and SikaWall® mineral renders from Sika are available in a one coat or top coat finish and can be applied to many different substrates including vertical masonry and concrete walls. Through-coloured, weather resistant and breathable, these decorative renders are durable, long lasting and available in a wide range of colours to meet specific design requirements.

## SIKAWALL®-530 Top Coat

25kg  
40 per pallet

SikaWall®-530 Topcoat is a Dry Dash receiver for application onto SikaWall®-100 Base Coat.

## SIKAWALL®-500 Wet Dash

25kg  
40 per pallet

SikaWall®-500 Wet Dash is combined with decorative aggregate to create a wet dash finish for masonry applications.

## SIKAWALL®-531 Smoothband

25kg  
40 per pallet

SikaWall®-531 Smoothband is used to create a flat finish in small areas such as window or door reveals.

## SIKAWALL®-5400 Exposed Aggregate

25kg  
40 per pallet

SikaWall®-5400 Exposed Aggregate is a dry dash receiver used as part of Sika EWI systems.

## PAREX Monorex GM

25kg  
48 per pallet\*

3 colours  
G00, G10, G20  
now made in  
the UK.

A medium grain one-coat or top coat finish, through coloured, weather resistant and breathable decorative render. Available in a wide range of colours, please see the Mineral Render Colour Chart.

\* Except G00, G10, G20, which are 40 per pallet.

## PAREX Monoblanco

25kg  
48 per pallet

A bright white, semi-lightweight, one coat, weather resistant and breathable one-coat render for vertical masonry and concrete walls. MONOBLANCO is a bright white version of MONOREX GF.

## PAREX EHI GM

25kg  
48 per pallet

A medium grain through coloured mineral-based hydraulic render for use with the PAREXTHERM and PAREXDIRECT render systems. Available in a wide range of colours, please see the Mineral Render Colour Chart.

## PAREX Monorex GF

25kg  
48 per pallet

A fine grain one-coat or top coat finish, through coloured, weather resistant and breathable decorative render. Available in a wide range of colours, please see the Mineral Render Colour Chart.

## PAREX Blanc du Littoral

25kg  
48 per pallet

A bright white, one-coat weather resistant and decorating render for internal and external vertical dense masonry and concrete walls.

## PAREX EHI GF

25kg  
48 per pallet

A fine grain through coloured mineral-based hydraulic render for use with the PAREXTHERM and PAREXDIRECT render systems. Available in a wide range of colours, please see the Mineral Render Colour Chart.

# BASE COATS

The SikaWall® and Parex basecoat range from Sika provides a weather resistant, breathable solution suitable for use with a broad range of renders, coatings and masonry substrates, including damp surfaces.

## SIKAWALL®-100 Base Coat

- 25kg
- 40 per pallet

SikaWall®-100 Base Coat is for use prior to the application of SikaWall®-530 Top Coat. Made in the UK.

## SIKAWALL®-1015 Adhesive Coat

- 25kg
- 40 per pallet

SikaWall®-1015 Adhesive Coat is an adhesive to bond insulation as part of Sika EWI systems.

## PAREX Maite

- 25kg
- 48 per pallet

An Insulation adhesive and base coat used with the Parextherm and Parexdirect render systems.

## PAREX Monogris E

- 25kg
- 48 per pallet

A high performance polymer modified, weather resistant, grey base coat and finishing render for vertical external and internal walls.

## PAREX Parmurex

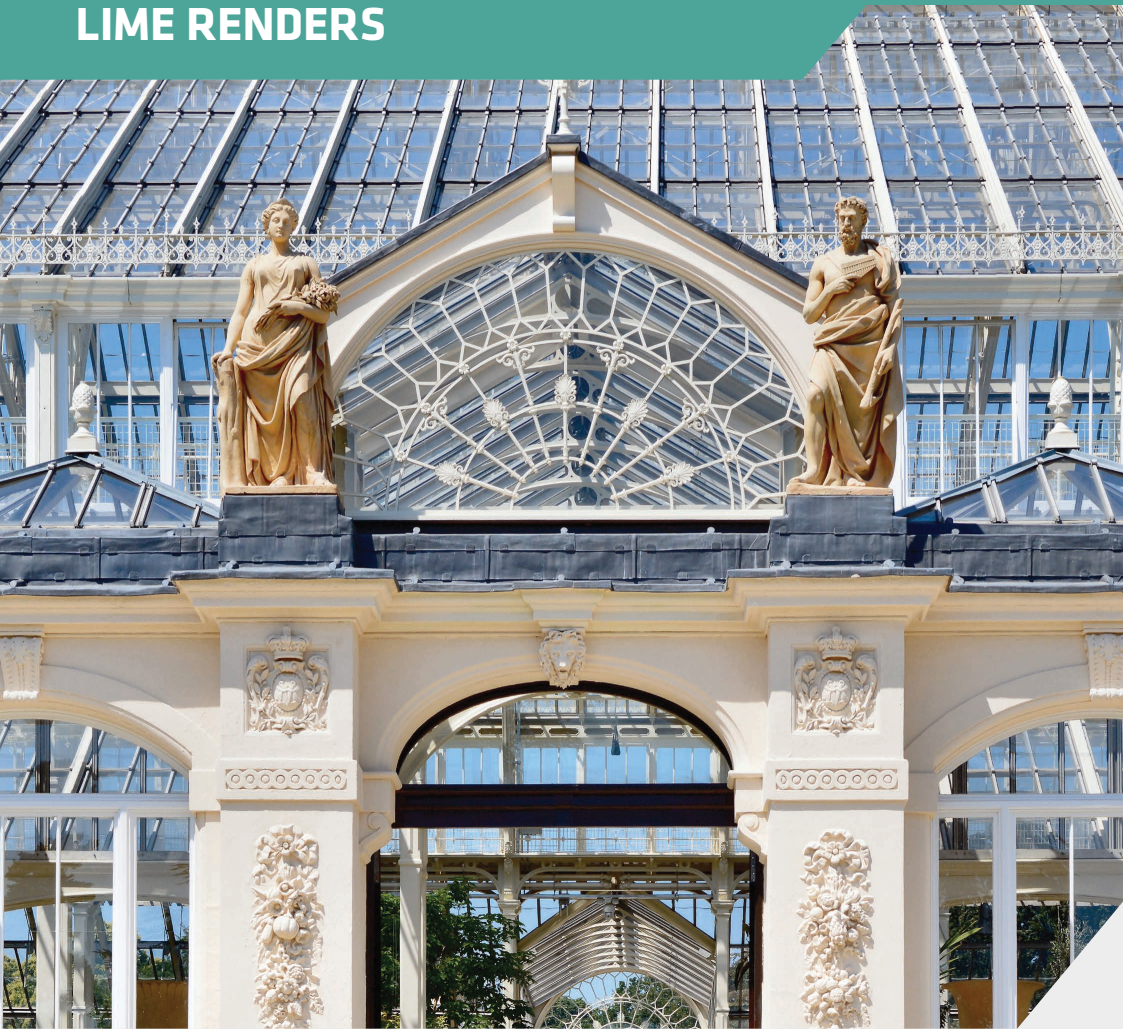

- 25kg
- 48 per pallet

One-coat weather resistant grey render for internal and external dense masonry and concrete walls. Suitable as a grey coat finishing render or as a base coat for receiving a Parex decorative finish.

# LIME RENDERS

Lightweight and weatherproof, the Sika Parex range of hydraulic lime-based renders can be used on the painted surface of old or traditional buildings, the repointing of stonework and bricks, and for use as a building mortar in constructing masonry. These products are ideal for the technical problems often encountered during the renovation and restoration of old buildings.

## PAREX

Parexal

25kg

48 per pallet

A one coat application lightweight, weatherproof, hydraulic lime, through-coloured render, designed for the protection and decoration to façades of old or new buildings. Available in the same colour range as our mineral renders.

## PAREX

Parinter Renovation

25kg

48 per pallet

A restoration and bonding mortar for the renovation of old hydraulic cement or lime based renders, whether sound or cracked but not delaminated, including render or masonry that has been painted or has received a thick textured coating system.

## PAREX

Parlumiere Clair

25kg

48 per pallet

Hydraulic, lime-based, lightweight, natural white mortar, designed for use as a base coat in conjunction with Parlumiere Moyen/Fin or Parexal lime renders.

## PAREX

Parlumiere Fin

25kg

48 per pallet

A fine through-coloured hydraulic lime render for use as a traditional render. Available in the same colour range as our mineral renders.

## PAREX

Parlumiere STH

25kg

48 per pallet

Hydraulic, lime-based, lightweight, water repellent mortar and render, resistant to sulphates, designed to stabilise masonry which has deteriorated due to salts, saltpetre or damp.

## PAREX

Parlumiere Moyen

25kg

48 per pallet

A medium grain through-coloured top coat render made of hydraulic lime, used as the finishing coat of traditional renders. Available in the same colour range as our mineral renders.

The Parex range of pre-mixed, vapour permeable top coats from Sika are ready to apply, providing a decorative coating to internal and external applications, and are available in a wide range of colours and finishes to meet specifier requirements.

## PAREX

Revlane+ Ignifuge  
Taloche Gros

 25kg

 36 per pallet

A pre-mixed, vapour permeable, ready to apply Acrylic based decorative coating for external and internal walls. Finished appearance is based upon grain size, Gros 1.6mm. Please see the Revlane Colour chart.

## PAREX

Revlane+ Ignifuge  
Taloche Fin

 25kg

 36 per pallet

A pre-mixed, vapour permeable, ready to apply Acrylic based decorative coating for external and internal walls. Finished appearance is based upon grain size, Fin 1.0mm. Please see the Revlane Colour chart.

## PAREX

Revlane+  
Regulateur

 25kg

 36 per pallet

An acrylic-based, ready-to-use coloured primer designed to adjust the base absorption to substrates and increase the depth of colour prior to the application of Parex REVLANE+ top coat finishes

## PAREX

Revlane Siloxane  
Ignifuge Taloche Gros

 25kg

 36 per pallet

A pre-mixed, vapour permeable, ready to apply Siloxane-based decorative coating offering increased weather resistance and water run off properties. Finished appearance is based upon grain size, Gros 1.6mm. Please see the Revlane Colour Chart.

## PAREX

Revlane Siloxane  
Ignifuge Taloche Fin

 25kg

 36 per pallet

A pre-mixed, vapour permeable, ready to apply Siloxane-based decorative coating offering increased weather resistance and water run off properties. Finished appearance is based upon grain size, Fin 1.0mm. Please see the Revlane Colour Chart.

## PAREX

Crylane

 20kg

 33 per pallet

An acrylic binder paint specially designed for new and existing building façades with excellent coverage. Can be used pure or diluted with water. Please see the Revlane Colour chart.

# POINTING MORTARS

Designed for manual and gun-injection application, offering a consistent colour and finish, the Parex range of pointing mortars from Sika provide solutions for the pointing of brickslips, masonry and precast concrete. Our Historic Mortar is suitable for application within the heritage market due to its cement-free nature and is available in a wide range of colours.

## PAREX Historic Mortar

25kg  
40 per pallet

Designed for gun-injection, Parex Historic Mortar provides a cement-free mortar for pointing soft brick or stonework. Consistent in both colour and finish, Parex Historic mortars are pumped deep into the joint, providing a complete fill and a degree of flexibility.

## PAREX Historic Mortar KL

25kg  
40 per pallet

Designed for gun-injection, Parex Historic Mortar KL is a cement-free mortar suitable for use with dense masonry and brick tiles, eg. Corium Brick Cladding System, where porosity is low and suction is limited.

## PAREX Standard Mortar

25kg  
40 per pallet

Designed for gun-injection, Parex Standard Mortar provides a clean, quick, lasting solution for pointing sound brickwork or masonry.

## PAREX Repraface

25kg  
40 per pallet

A cementitious, through coloured, masonry repair mortar.

## PAREX Historic Mortar AL-X

25kg  
40 per pallet

Designed for gun-injection, Parex Historic Mortar AL-X is a cement-free mortar suitable for use with dense masonry and brick tiles, eg. Ash & Lacy Brick Cladding System, where porosity is low and suction is limited.

# COMPLEMENTARY PRODUCTS

Sika Parex offers a number of complementary products designed to enhance the characteristics and performance of renders and finishes, including solutions such as high strength glass fibre mesh, render bead adhesives, admixtures and regulators.

## PAREX 355 AVU Reinforcement Mesh

-  1m x 50m roll
-  33 per pallet

A green coloured glass fibre mesh fabric combined with specially designed surface treatments that can be used in a wide range of PAREXTHERM and PAREXDIRECT render applications. For ease of identification the 355 AVU mesh is coloured green and has the 'PAREX' name and logo throughout the mesh.

## PAREX TV10 Reinforcement Mesh

-  1m x 50m roll
-  33 per pallet

A glass fibre mesh fabric combined with specially designed surface treatments that can be used in a wide range of Parex cement and lime render applications. For ease of identification the TV10 mesh is coloured green and has the Parex logo throughout the mesh.

## PAREX Fixopierre

-  5L
-  90 per pallet
-  20L
-  28 per pallet

A water vapour-permeable and microporous substrate porosity regulator and key coat admixture, particularly suitable for lime or earth based substrates where high breathability of the substrate is required or where a high absorption substrate is expected. FIXOPIERRE improves the adhesion of façade renders by reducing the risk of the product drying out before hardening.

## PAREX Render Bead Adhesive

-  350ml
-  12 cartridges per box
-  100 boxes per pallet

A new ready-to-use, high-strength render bead adhesive. The bead adhesive has been designed for ease of application, fast drying and is capable of bonding to a wide range of substrates.

## PAREX Monacel Plus

-  20L
-  26 per pallet

Monacel Plus is an admixture used to reduce the initial setting time of one-coat renders and other general mortars.

# COMPLEMENTARY PRODUCTS

## PAREX

DurciPierre

5L

90 per pallet

DurciPierre is a stone and render hardener/consolidator for the treatment of friable finishes.

## PAREX

Micro Gobetis 3000

20L

27 per pallet

A pink coloured liquid with a high granular consistency for ease of application recognition, and to provide excellent bonding characteristics. Micro Gobetis 3000 is designed to control suction to high absorption or low porosity substrates and improves the adhesion for one coat render systems.

## SIKA®

Mould Buster

5L

24 boxes per pallet  
4 units per box

A powerful, fast acting solution which is effective on most surfaces. It removes algae, mould and green growth without the need for scrubbing or pressure washing.

## PAREX

Tardex

20L

24 per pallet

An additive which modifies the cement's hydration process. It is added to the water mix for cementitious products and is designed to prolong the handling/working time of Portland cement-based concretes, renders and mortars, without extending the time between start and finish of the initial setting.

## PAREX

Lankolatex

20L

28 per pallet

A white liquid admixture used for a range of key coat preparations, bonding and waterproofing coats and which significantly improves the performance of mortars and concrete.

## PAREX

Paraguard

5L

48 per pallet

25L

24 per pallet

A water based coating, which provides a weatherproof, lotus leaf effect, water resistant surface to a range of render, paving, masonry and timber substrates.
