## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Trade name : SikaCem<sup>®</sup>-133 CP Gunite

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : Cement / Mortar

### 1.3 Details of the supplier of the safety data sheet

| Company name of supplier                            | : | Sika Limited<br>Watchmead Welwyn Garden City<br>Hertfordshire. AL7 1BQ |
|---|---|--|
| Telephone<br>Telefax                                | : | +44 (0)1707 394444<br>+44 (0)1707 329129                               |
| E-mail address of person<br>responsible for the SDS | : | EHS@uk.sika.com  |

#### **1.4 Emergency telephone number**

National Chemical Emergency Centre (NCEC) 24 Hour Emergency Telephone Number +44 870 190 6777

## **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

| Classification (REGULATION (EC) No 1272/2008)                                    |   |  |  |  |  |  |
|--|---|--|--|--|--|--|
| Skin irritation, Category 2  | H315: Causes skin irritation.           |  |  |  |  |  |
| Serious eye damage, Category 1   | H318: Causes serious eye damage.        |  |  |  |  |  |
| Specific target organ toxicity - single exposure, Category 3, Respiratory system | H335: May cause respiratory irritation. |  |  |  |  |  |

#### 2.2 Label elements

#### Labelling (REGULATION (EC) No 1272/2008)

| Hazard pictograms | : | L. L.  |                         |
|-------------------|---|--------|-------------------------|
| Signal word       | : | Danger |                         |
| Hazard statements | : | H315   | Causes skin irritation. |

## Hazardous components which must be listed on the label:

Cement (chromium reduced)

## 2.3 Other hazards

The content of soluble Chromium (VI) is not greater than 0,0002% in accordance with Annex XVII, Paragraph 47 of the EU Regulation 1907/2006. The product reacts highly alkaline with water.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

## **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

## Components

## **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

| Advice on safe handling                         | : | Do not breathe vapours/dust.<br>Avoid exceeding the given occupational exposure limits (see<br>section 8).<br>Do not get in eyes, on skin, or on clothing.<br>For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the ap-<br>plication area.<br>Follow standard hygiene measures when handling chemical<br>products |
|---|---|--|
| Advice on protection against fire and explosion | : | Avoid dust formation. Provide appropriate exhaust ventilation at places where dust is formed.  |
| Hygiene measures                                | : | Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.  |

### 7.2 Conditions for safe storage, including any incompatibilities

| Requirements for storage areas and containers | : | Store in original container. Keep in a well-ventilated place.<br>Observe label precautions. Store in accordance with local<br>regulations. |
|---|---|--|
| Further information on stor-<br>age stability | : | Keep in a dry place.<br>No decomposition if stored and applied as directed.  |

## 7.3 Specific end use(s)

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

### Occupational Exposure Limits

| Components | CAS-No.   | Value type (Form<br>of exposure) | Control parame-<br>ters * | Basis * |
|------------|-----------|----------------------------------|---------------------------|---------|
| Limestone  | 1317-65-3 | TWA (inhalable dust)             | 10 mg/m3                  | GB EH40 |
|            |           |                                  |                           |         |

| Date of last issue: 07.05.2024<br>Revision Date: 16.09.2024 | Versio  | n 3.7                    | Print D               | ate 07.10.2024   |
|---|---|--------------------------|-----------------------|--|
|   | dust or 4 mg.m-3 8-hour TWA of respirable dust. This means that<br>any dust will be subject to COSHH if people are exposed to dust<br>above these levels. Some dusts have been assigned specific<br>WELs and exposure to these must comply with the appropriate<br>limits., Most industrial dusts contain particles of a wide range of<br>sizes. The behaviour, deposition and fate of any particular particle<br>after entry into the human respiratory system, and the body re-<br>sponse that it elicits, depend on the nature and size of the particle.<br>HSE distinguishes two size fractions for limit-setting purposes<br>termed 'inhalable' and 'respirable'., Inhalable dust approximates to<br>the fraction of airborne material that enters the nose and mouth<br>during breathing and is therefore available for deposition in the<br>respiratory tract. Respirable dust approximates to the fraction that<br>penetrates to the gas exchange region of the lung. Fuller defini-<br>tions and explanatory material are given in MDHS14/4., Where<br>dusts contain components that have their own assigned WEL, all<br>the relevant limits should be complied with., Where no specific<br>short-term exposure limit is listed, a figure three times the long-<br>term exposure limit should be used. |                          |                       | sposed to dust<br>ed specific<br>e appropriate<br>wide range of<br>articular particle<br>the body re-<br>e of the particle.<br>g purposes<br>approximates to<br>se and mouth<br>osition in the<br>the fraction that<br>Fuller defini-<br>14/4., Where<br>igned WEL, all<br>e no specific |
|   |   | TWA (Respirable dust)    | 4 mg/m3               | GB EH40  |
| Cement (chromium reduced)                                   | 65997-15-1  | TWÁ (inhalable dust)     | 10 mg/m3              | GB EH40  |
|   |   | TWA (Respirable dust)    | 4 mg/m3               | GB EH40  |
| Fumes, silica   | 69012-64-2  | TWÁ (inhalable dust)     | 6 mg/m3<br>(Silica)   | GB EH40  |
| *The share mentioned using one in                           |   | TWÁ (Respirable<br>dust) | 2,4 mg/m3<br>(Silica) | GB EH40  |

\*The above mentioned values are in accordance with the legislation in effect at the date of the release of this safety data sheet.

### general dust value

| Form of exposure    | Value type | Control parameters | Basis   |
|---------------------|------------|--------------------|---------|
| Inhalable           | TWA        | 10 mg/m3           | GB EH40 |
| Respirable fraction | TWA        | 4 mg/m3            | GB EH40 |

## 8.2 Exposure controls

| Personal protective equip | oment |  |
|---------------------------|-------|--|
| Eye/face protection       | :     | Safety glasses with side-shields conforming to EN166<br>Eye wash bottle with pure water  |
| Hand protection           | :     | Chemical-resistant, impervious gloves complying with an ap-<br>proved standard must be worn at all times when handling<br>chemical products. Reference number EN 374. Follow manu-<br>facturer specifications. |
|                           |       | Recommended: Butyl rubber/nitrile rubber gloves.<br>Contaminated gloves should be removed.   |

|                                |

Version 3.7

## **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2 Chemical stability

The product is chemically stable.

### 10.3 Possibility of hazardous reactions

Hazardous reactions : No hazards to be specially mentioned.

### 10.4 Conditions to avoid

Conditions to avoid : No data available

### 10.5 Incompatible materials

Materials to avoid : No data available

### 10.6 Hazardous decomposition products

No decomposition if stored and applied as directed.

## **SECTION 11: Toxicological information**

## 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

Not classified based on available information.

Skin corrosion/irritation

Causes skin irritation.

#### Serious eye damage/eye irritation

Causes serious eye damage.

#### Respiratory or skin sensitisation

#### Skin sensitisation

Not classified based on available information.

#### Respiratory sensitisation

Not classified based on available information.

#### Germ cell mutagenicity

Not classified based on available information.

#### Carcinogenicity

Not classified based on available information.

Print Date 07.10.2024

## SikaCem<sup>®</sup>-133 CP Gunite

Date of last issue: 07.05.2024 Revision Date: 16.09.2024 Version 3.7

#### **Reproductive toxicity**

Not classified based on available information.

## **STOT - single exposure** May cause respiratory irritation.

STOT - repeated exposure

Not classified based on available information.

#### Aspiration toxicity

Not classified based on available information.

## 11.2 Information on other hazards

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

No data available

#### 12.2 Persistence and degradability

No data available

#### 12.3 Bioaccumulative potential

No data available

#### 12.4 Mobility in soil

No data available

### 12.5 Results of PBT and vPvB assessment

#### Product:

Assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher..

#### **12.6 Endocrine disrupting properties**

No data available

### 12.7 Other adverse effects

#### Product:

Additional ecological infor- : There is no data available for this product. mation

:

## **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Product

The generation of waste should be avoided or minimized
