

Sikaflex[®]-545
HIGH GRAB, LOW EMISSION
ADHESIVE FOR FAST
HANDLING

PRODUCT DESCRIPTION

Sikaflex®-545 is a one-component elastic assembly adhesive based on Sika Silane Terminated Polymer (STP) technology. It is a high initial grab adhesive and meets most severe EHS standards with very low emissions as it is free of isocyanate, solvent, PVC and phthalate. It can be applied easily by a manual dispenser. Nevertheless the high green strength of Sikaflex®-545 allows a powerful initial load capacity directly after application, outperforming most available silane modified products.

Sikaflex®-545 adheres well to a wide variety of substrates without the need for special pre-treatments. It can be used on substrates such as timber, glass, metals, metal primers and paint coatings (2-part systems), ceramic materials and plastics.

TYPICAL APPLICATION AREAS

- General machinery manufacturing
- Body and frame assembly applications
- Elevator and home appliances industries
- Fixation of mirrors
- Everywhere where fast handling and an elastic joint is required

KEY PRODUCT FEATURES

- Exceptional powerful initial grab

- Very good workability, easy to extrude with manual dispensers

- Meets highest EHS standards

- Wide adhesion range, bonds well

TECHNICAL DATA

Chemical base	1-Component STP
Colour	White
Cure mechanism	Moisture curing
Non-sag properties	Excellent
Application temperature	5°C – 40°C
Skin time	15 minutes
Shore A-hardness	45
Tensile strength	2.5 N/mm ²
Tear propagation resistance	7 N/mm ²
Elongation at break	400%
Service Temperature	-50°C to +80°C

A reliable bonding joint of metal stiffener and frames in metal bodies can be achieved with Sikaflex®-545 with fast and easy handling process.

Our most current General Sales Conditions shall apply.
Please consult the most current local Product Data Sheet prior to any use.
